LAUGHTER OF REBELS.

Cut to Pieces in a Canyon.

The Army of Two Thousand Caught in Trap of Death by the Federals.

West Plain of Mexico Is strewn With Bodies of Those Killed.

Gen. Orozco, Conceding Defeat, Says He Fell Back to Better Position.

overlaken on the desert and killed. Others died from lack of food and water. The barren plains between Cuatro Ciénegas and Sierra Mojada, a distance of 100 miles, are said to be strewn with rebel dead.

OROZCO CONCEDES BITTER DEFEAT.

[BY A. P. NIGHT WIRE TO THE TIMES.] AT GENERAL OROZCO'S HEADQUARTERS, JIMENEZ (Mex.) May 13.—Conceding his defeat in the initial battle before Conchos, Gen. Pascual Orozco is by no means dispirited to-night.

"The revolution has just begun," he said, "and we are confident that ultimately we will overthrow Madero for a just revolution always will triumph. Lack of food and water for our men and horses as well as the better artillery of the Federals caused our defeat. We had insecure positions and retreated for strategic reasons. Our losses were light."

Gen. Orozco would not say how many men he had lost, but admitted that he had not heard from Gen. Campa and Artigues who he sent around to the west of Conchos to flank the Federals. Apprehensive as he felt for both commanders and their force of 1500 men. Gen. Telles of the Federal army is believed to have engaged them and cut off their retreat.

Gen. Orozco was at a loss to understand rumors in circulation today in Northern Mexico that he had been killed.

"Madero will find me very much alive before many days," said Orozco grimly.

Only skirmishing occurred today. The rebels chiefly occupied themselves in recovering from yesterday's fight. Orozco retired to Jimenez today, ninety miles north of Conchos, the scene of yesterday's duel of artillery between the rebels and the Federal forces of Gen. Huerta.

Couriers brought the doubtful information today that the rebels had checked the advance of the Federals near Conchos and that firing continued throughout the night. Gen. Salazar was directing the rebel maneuvers, although Orozco today ordered a portion of the rebel forces to fall back to Jimenez. While it is believed the Federals will be able to pursue the rebels northward along the Mexican Central Railway, the movement would leave Madero and Torreon weakened in the event of flank attacks by the

English Flyer and an American Dead.

TAFT MEN IN CONTROL IN STATE OF WASHINGTON.

[BY A. P. NIGHT WIRE TO THE TIMES.]

Citizen of United States Who Meets His End on the Brooklands Field Near London Is Supposed to Be Victor Louis Mason, Famed in Business and Politics.

[BY DIRECT WIRE TO THE TIMES.] LONDON, May 13.—[Exclusive Dispatch.] The English Aviator E. V. Fisher, with a passenger, who has as yet not been fully identified, but is supposed to be Victor Louis Mason, the American mining promoter, were killed at the Brooklands aviation grounds tonight.

Mason was a friend of the British naval aviator, Commander Sampson, who graduated his wish for an air trip by asking Fisher to take him up.

The pair circled the Brooklands course about half a dozen times in a Howard-Flanders monoplane. They were coming down when the machine seemed to sidle suddenly, and then dived down straight, like a stone, for about 150 feet. Aviator Sopwith, who was flying about at the time, saw what had happened and swooped down to the spot to see what he could do. He found both men dead, the machine a wreck, and the petrol tank burning.

Mason's clothes were on fire at the time, but Sopwith and some men whom he called to his help succeeded in extinguishing the fire before the bodies were burned up.

It appeared to be certain that both men were killed instantly. Their spines were dislocated.

Victor Louis Mason was appointed private secretary to Secretary of War Alger in 1907, and retained his position when Elihu Root succeeded Alger.

In 1908 he was assistant secretary of the National Republican Committee, having charge of President Taft's campaign.

He was vice-president of the Development Company of America, director of the Imperial Copper Company, Tomblinson Consolidated Mining Company, Polaris Mining Company and the Gila Copper Sulphide Company.

ARCHIBALD COATS DEAD.

LONDON, May 12.—[Exclusive Dispatch.] Archibald Coats, the last twenty years head of the great thread company, died last night at Paisley at the age of 74.

ROOSEVELT WOULD WIPE OUT CIVIL WAR VICTORY.

Work of Veterans and Negro Protection Would Be Repealed by Third-Term.

President Taft Points Out Danger of the "Reforms" Proposed by Opponent and Absurdity of Claims to Bring About Millennium in Four Years—Vanity and Egotism Would Go to Extremes.

[BY A. P. NIGHT WIRE TO THE TIMES.]

STUBBENTVILLE (O.) May 13.—President Taft's first day of his final campaign through Ohio, which came to an end with a speech here tonight, was marked by the most pronounced verbal assaults upon Col. Roosevelt to which Mr. Taft so far has given public utterance. In speeches that were filled with indignant attack, that bubbled over with uncompromising adjectives, Mr. Taft discharged his oratory at his predecessor.

He started out upon his last campaign to urge the people of Ohio to support him in the primaries of May 21 at Marietta, in a cold rain, which finally fled before the sun.

Although in substance all of the dozen speeches the President made were much like those he delivered in Massachusetts and Maryland they differed widely at times in the words used to score Mr. Roosevelt.

One of the attacks on Mr. Roosevelt which raised a laugh, delivered at Dennison, ran like this:

"I think it would be dangerous to put a man with Mr. Roosevelt's present constitutional views and with the elation he would necessarily feel by reason of getting something that all these great Presidents have never gotten—it would not be safe to put him in the White House again."

ROOSEVELTIAN ABSURDITY.

"He says the reason the American people are going to elect him is because he is necessary for the job. That is the description he gives. Well, I hope the American people will not think that he is necessary for the job. I want to call your attention to what the job is which he proposes. It is the millennium that he is going to bring about when he gets into office. All houses are going to disappear, politicians are going to be fewer and he is going to have a finger in every community in every State, in every county and everything is going to heaven."

"If that be true the millennium is coming and if that is the job he is to do it is going to take longer than four years. I beg of you to ask him when he comes here, whether he would take a fourth term, ask him whether he is going to take a fifth term and why he should not continue in office during his life."

Another rally that brought a response was much like that delivered at Cambridge. Speaking there of the job Mr. Roosevelt said the people wanted him to do, President Taft asked:

"Suppose Mr. Roosevelt were waited to the skies in a chariot like the prophet of old and were to disappear from sight, how do you suppose this country would get along anyhow?"

PRESIDENT IS IN BEST OF CONDITION.

[BY A. P. NIGHT WIRE TO THE TIMES.] MARIETTA (O.) May 13.—With his fighting blood up, President Taft today began in Marietta his 1912 campaign, which will take him into practically every corner of the State. His campaign will end only a few hours before the polls open for the voters to register their preferences for President on May 21.

In the best sort of physical condition

(Continued on Second Page.)

EXPOSITION MANAGEMENT ATTACKED BY JOHNSON.

Governor Angry Because San Francisco Fair Organization Paid Secretary Knox's Traveling Expenses. Col. Hammond Sure of Taft Victory—La Follette Manager Tells of Coercion by State Machine.

[BY A. P. NIGHT WIRE TO THE TIMES.]

SAN FRANCISCO, May 13.—The eleventh hour of the Presidential primary campaign took an unexpected turn today. Gov. Johnson, who announced that he had closed his campaign for Roosevelt, reopened it with an attack on the Panama-Pacific International Exposition management for importing a Cabinet officer "to do Taft politics," as he charged, at the cost of exposition funds, and he lengthened his speaking list to include an address tonight in Berkeley.

"I've just learned," said the Governor this afternoon, "that the exposition paid \$5000 for the expenses of the private car of Secretary Knox on his recent visit."

"There would be no objection to paying the expenses of a distinguished guest, but who will justify that payment in order that Mr. Knox may do Taft politics in California?"

Predictions of the result tomorrow at the polls passed as widely as ever. Col. Charles Miffin Hammond, chairman of the Taft Republicans, closed a summary of arguments already made for his principal with the following paragraph:

"A careful canvass of the State and its sincere personal belief in the intelligence and gratitude of the people lead me to predict, without any doubt, that President Taft will carry the State by a very handsome majority."

Roosevelt's managers see a plurality in the State of not less than 15,000 and a majority of not less than 15,000. The last specific Taft estimate was a plurality of 35,000. Tonight for the first time the progressives gave an analysis of their computed prospects.

CLAIMING EVERYTHING.

"We have detailed reports from every large center of population and many of the small ones," reads the statement. "Starting with San Francisco, where Roosevelt will receive a plurality, his lead will be increased in forty-five out of the remaining counties of California."

"Alameda county will give him a plurality not less than 10,000, and Sacramento and Stockton will go for Roosevelt, as well as Fresno and Santa Clara counties. The trifling mistake in Taft estimates of Humboldt county is that there will be a 1500 plurality there but it will be for Roosevelt. The local organization of Lake county predicts a vote of 2 to 1 for Roosevelt. Contra Costa county is nearly solid for Roosevelt. The shrewdest observers in Mendocino county, which has 2800 Republican voters registered, give it to Roosevelt by better than 750."

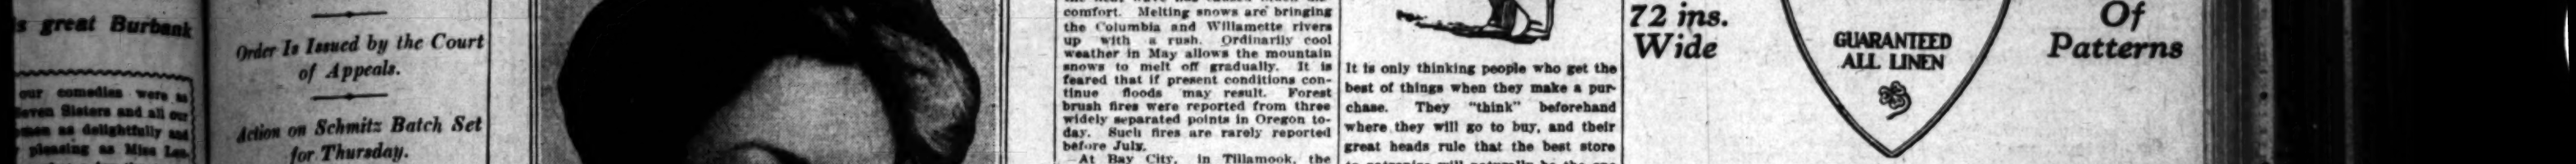

The statement says nothing of the

Happenings on the Pacific Slope.

How "Texas Tommy" Should Be Danced.

Miss Blanche Bates, Actress, who demonstrated in her bare feet how new dance should actually be executed. The demonstration took place at an exclusive week-end house party at Los Gatos.

Miss Blanche Bates, Actress, who demonstrated in her bare feet how new dance should actually be executed. The demonstration took place at an exclusive week-end house party at Los Gatos.

BLANCHE BATES SHOWS SOCIETY HOW TO DANCE IT.

[BY DIRECT WIRE TO THE TIMES.] SAN FRANCISCO, May 13.—[Exclusive Dispatch.] How the "Texas Tommy" should actually be danced has been shown by Miss Blanche Bates, actress and girl of the Golden West, through a demonstration at a week-end house party given by her, Russell T. Cool at Los Gatos, of her idea of the dance.

Miss Bates danced the Texas Tommy in her bare feet, and Dick Hotelling, the actor millionaire, and other men of wealth, supplemented the dance made with vigorous hand clapping. Fourteen guests of Dr. and Mrs. Cool met Miss Bates when she arrived at the Cool home. The guests were introduced to the play in which Miss Bates has been appearing in San Francisco. The women of the party had their hair done in pig tails and seed onions. They were dressed in kimono, carried candles and simulated cry-baby voices to help along the illusion of "Betty" in Miss Bates's play.

When she arrived at the Cool home, Miss Bates accepted the situation with sportmanlike relish. DAVENPORT AT REST. Silverton Band That Figures on Largely in His Tale Plays Funeral March for Cartoonist. [BY A. P. NIGHT WIRE TO THE TIMES.] SILVERTON (Or.) May 13.—Peacefully at rest in a little cemetery of Silverton, between the bodies of the father, whom he so greatly revered, and his youngest brother, Homer Davenport, cartoonist, writer and philosopher, lies buried this afternoon.

All Silverton mourned the passing of her favorite son. Homer Davenport was one contribution Silverton has made to the big world and Davenport, in his homely and reminiscent way, made this little Willamette Valley town famous. The Silverton "band," which figured in so many of Davenport's tales, headed the funeral procession from the public hall, where the services were held, to the little cemetery where the last simple words were said, and where the boyhood friends and admirers of Davenport strewed flowers over the grave.

PHILIPPINE TREASURY. RECORD OF EIGHT YEARS. [BY A. P. NIGHT WIRE TO THE TIMES.] WASHINGTON, May 13.—Ten million dollars in net profits from Seigniorage on silver coinage, sale of drafts, and interest on gold reserve deposits is the record of the Philippine Treasury for the last eight years, according to a bureau of insular affairs statement. Modern American financial methods were introduced in the Philippines just eight years ago, and since that time the profits have

reached a total amounting to more than 46 per cent of the outstanding circulation. Reserve for the maintenance of the gold standard having climbed to 46 per cent, is to be reduced to 35 per cent to meet the excess in the treasury. POLITE POLICE. SYNCHRONOUS TERMS ANYWAY. [BY A. P. NIGHT WIRE TO THE TIMES.] SAN FRANCISCO, May 13.—San Francisco's policemen are to be given lessons in politeness. No longer will the gruff "O'wan" and similar expressions be tolerated, according to Police Commissioner Jesse B. Cook, who, with Chief of Police Willie returned yesterday from a trip through the principal cities of the East. "The old rough treatment of the public by police has passed," said Cook. "The use of clubs has practically been abolished, except in emergency cases. Politeness will be an essential part of the San Francisco policeman's training, henceforth."

AN ATTEMPTED BURGLARY. WORSE THAN A REAL ONE. [BY A. P. NIGHT WIRE TO THE TIMES.] SACRAMENTO, May 13.—Harry B. Prideaux discovered today that an attempted burglary is sometimes as serious a crime in the eyes of the law as a successful burglary. He was sentenced this morning to serve ten years in San Quentin by Judge Hughes, for attempting to loot the room of C. D. Holder. Prideaux had already served one year in prison for burglary committed in Santa Clara county, and was paroled. Under the law he must now serve the maximum term under the former conviction.

HEAT WAVE IN OREGON. So Hot Up There This Early in the Year That the Brush and Timber Are Catching Fire. [BY A. P. NIGHT WIRE TO THE TIMES.] PORTLAND (Or.) May 13.—[Exclusive Dispatch.] May heat records of twenty-seven years for Portland went to smash yesterday and today, when the mercury climbed to the highest points known for so early in the season. The high mark yesterday was 89 and that of today 90 deg. Coming so early, when Oregon people are unprepared for hot weather, the heat wave has caused much discomfort. Melting snows are bringing the Columbia and Willamette rivers up with a rush. Ordinarily cool weather has allowed the mountain snows to melt off gradually. It is feared that if present conditions continue, floods will sweep down the brush fires were reported from three widely separated points in Oregon today. Such fires are rarely reported before July.

At Bay City, in Tillamook, the blaze in a tract of logged-off land and small timber swept down upon the town, destroying residences and threatening for a time to burn the entire town. A fire on Bull Mountain in Washington county, which started in the timber yesterday, has destroyed 1000 cords of cordwood. A large party is fighting the flames. A forest fire in the Calappa Mountains, near Roseburg, today was reported beyond control. The fire is threatening the town and volunteer fighters. Heavy damage to rich timber is feared.

ANTI-ALIEN BILL LOST. PIGEON-HOLED IN ARIZONA. [BY A. P. NIGHT WIRE TO THE TIMES.] PHOENIX (Ariz.) May 13.—The anti-alien labor bill, the effect of which would be to force out of employment approximately 20,000 non-English-speaking mine workers in Arizona, probably will not become a law at this session of the Legislature, which ends Thursday night. The bill, which has been bitterly opposed by mining and railroad companies, was passed by the Senate, but the House pigeon-holed it today. After a motion to table was defeated, it was referred to the Printing Committee.

The House passed and referred to the Senate today the semi-monthly pay-day bill, the employers' liability measure, and the bill granting pensions to superannuated schoolteachers. Gov. Hunt signed today the child labor bill, the eight-hour day for mines and smelters measure, the mine inspector bill, and several minor laws. C. M. Zander of Maricopa county, Charles H. Howe of Cochise county, and George Michelson of Yuma were named members of the newly-created Tax Commission by the Governor.

SCHOONER ASHORE. ANNIE M. NIXON DESERTED. [BY A. P. NIGHT WIRE TO THE TIMES.] VICTORIA (B. C.) May 13.—A message from Prince Rupert today said the gasoline fishing schooner Annie M. Nixon of Seattle is fast on White Cliff island, fifteen miles from Prince Rupert, and is deserted. Two dories were found hanging alongside the deserted vessel. The Annie-M. Nixon is a vessel of forty tons gross register and was built at Tacoma in 1904. She carried a crew of five men.

DIES ON A VISIT. PORTLAND WOMAN'S DEMISE. [BY A. P. NIGHT WIRE TO THE TIMES.] PORTLAND (Or.) May 13.—A woman who was visiting in Portland died at her home here today. She was Mrs. J. J. Grotto, who was a native of New York City, 63 years old, had been a resident of Portland for sixty-one years. OFF FOR ALASKA. CUTTER BEAR DEPARTS. [BY A. P. DAY WIRE TO THE TIMES.] SEATTLE, May 13.—The revenue cutter Bear sailed from Neah Bay today for Bering Sea, with the first mail for Nome and St. Michael. No trouble with ice is expected. The fleet of revenue cutters, which has sailed for Alaska, is expected to make observations to confirm or disprove the report that there has been a change in the course of ocean currents, and that this is the cause of the change of climate in Alaska.

SAFETY-CRACKER SENTENCED. FIFTEEN YEARS IN PRISON. [BY A. P. NIGHT WIRE TO THE TIMES.] STOCKTON, May 13.—W. A. Hartman, a postoffice safe-cracker, who was shot in the back while running from the Farmington office safe that he had blown with nitroglycerine about ten days ago, was sentenced today to serve fifteen years in Folsom prison. Hartman says the Farmington episode was his first offense. His expert knowledge of the explosive, however, militated against him. Divided Estate Yields Tax. SACRAMENTO, May 13.—[By A. P. Night Wire.] An unusual settlement of inheritance tax was recorded with the Controller today, when the County Treasurer of Sonoma county reported that he had received \$253.50 due on the Emily Prestohl estate, which was divided among twenty-one nephews and nieces. Under the inheritance law, each nephew and niece was entitled \$2000 exemption, making the total exemption \$42,000 or almost the total value of the estate.

SLOPE BRIEFS. "Seers" See the "Pen." SAN FRANCISCO, May 13.—[By A. P. Night Wire.] Defeated in efforts to get a new trial, Mrs. Beattie Arnold, alias Orloff, the "seers" who was convicted of having guided Mrs. Mary Grasse of her life's savings in a bogus spiritualist seance, was taken to San Quentin Penitentiary today to begin a five-years' sentence. Right Kind of Citizen. TACOMA, May 13.—[By A. P. Night Wire.] Washington Finley, a naturalized Englishman, who appeared for citizenship papers today, repeated the entire Constitution of the United States. Examiner Staples said it was the purpose of the naturalization officials to make the examinations as difficult as possible so that alien applicants will place a greater value on their citizenship. Napa Inmates Go to Circus. SACRAMENTO, May 13.—[By A. P. Night Wire.] A claim for 600 circus tickets, issued to the inmates of the State hospital at Napa last Friday, was approved by the State Board of Control today. The men and women, each, were taken to the circus by Superintendent Osborne and Dr. W. F. Hatch, secretary of the Lunacy Board.

"Great Head" It is only thinking people who get the best of things when they make a purchase. They "think" beforehand where they will go to buy, and their great heads rule that the best store to patronize will naturally be the one that selects its stocks with the greatest discrimination and care, and bases its prices upon fairness to all. And that is our well-known business maxim.

Shields & Orr Importers 201-205 Delta Building, 426 S. Spring St. Railroad Record. WOULD EXTEND HIS RAILROAD. Clark Ready to Help Miners of Iron Ore. Great Things Are Promised for Southern Utah. Development All Along Line to Los Angeles.

[BY DIRECT WIRE TO THE TIMES.] NEW YORK, May 13.—[Exclusive Dispatch.] Preparatory to closing his Fifth Avenue mansion here for the summer, Senator W. A. Clark entertained a large number of his far-western friends, who are members of the Stanford University Club of New York.

During the afternoon discussion centered largely upon problems of far-western development in their relationship to the eastern money markets. Isaac Russell, formerly of Salt Lake City, who, with Mrs. Russell, was among the guests, spoke of the service of the Clark railroad to Southern Utah, and of the new era it had brought to that part of the country as well as to California. The hope of the Commercial Club of Salt Lake to see the iron ore of Iron county brought into practical use was mentioned and this brought Senator Clark to his feet.

"There has been some criticism here," he said, "of the eastern coldness of contact, but that is not a part of the western spirit. We people of the West can speak each other's language so you will understand me when I say I want to co-operate in every way I can. I am proud of the country. That's the debt we owe that country."

"Now about that iron ore in Utah. You let any body of men step forward and show a disposition to mine that ore and I will step forward and put the railroad down there so it can be done. The only reason the railroad isn't there now is there has been no life in that country, and so it would have been useless to put it there. But we will be as quick as the first movement towards mining the ore to get there."

The music rendered by Senator Clark's art gallery organ during his final "at home" was largely composed of tunes familiar to the Stanford University campus, as Scott Brooks, Senator Clark's organist, was organist with the Stanford Memorial Chapel, before the earthquake of 1906 shook it down.

The Top That Defies Time Exposed to the air cooking fats quickly deteriorate. Keep out the air and they stay fresh indefinitely. How to do this successfully was for years unknown, until inventive genius devised the pail in which Cottolene is packed. This pail has an ingenious patented top, forced on by special machinery, which makes the pail air tight and protects the fat from the air, dust, dirt and odors, to which practically all other cooking fats are exposed.

The invention of this special patent top has enabled the manufacturers of Cottolene to guarantee their product to reach you as fresh as the day it was packed.

We Can Replace Them Without a Plate The work is guaranteed to look natural, feel natural, and for masticating purposes equal to Nature's own. We make Restorative Plates, which do wonders towards restoring the mouth to its youthful lines and appearance. Our Combination Plates used where one or more teeth remain in place, and our new method of restoring lost teeth, every facility for doing high-class dentistry is ours, and our prices are very reasonable. Each piece of work is guaranteed. Isn't that fair enough?

Office Hours: 8 to 6:—Sundays 9 to 12 Dr. W. F. Huddel Reliable Dentist 119 N. BROADWAY, COR. SECOND.

MR. VISITOR: You've had your week of fun; now let's get down to business. I am not going to URGE you to buy Los Angeles city and suburban real estate. I assume that you have your eyes open and your brain in working order. This being the case, it is a question not of "shall I buy?" but of "WHERE shall I buy?" My answer is: "PALM PLACE," if you are looking for a profitable investment, or for a high-class home villa site, or both. PALM PLACE is on the Venice Short Line, between Los Angeles and the rapidly increasing tide of population that is pushing back toward this city from the sea. In location, improvements, scenery, transportation facilities, neighbors and building restrictions, it leaves nothing to be desired. Let me show you and tell you the rest in person. An automobile is at your service.

Life's Sunny Side

DEFENDED BY
EX-SWEETHEARTKimmel Is Kimmel, Declares
Duluth Woman.Says Mother Turned Against
Him After Divorce.Names Man Who Profited by
His Disappearance.

(BY DIRECT WIRE TO THE TIMES.)
CHICAGO, May 13.—[Exclusive Dispatch.] Mrs. William Lardner of Duluth, Minn., who, as Mabel Findley, was the sweetheart of George A. Kimmel, today declared a former Arkansas City business man as one who had profited by Kimmel's mysterious disappearance in 1908.

It was through Mrs. Lardner's influence that the man who asserts he is Kimmel, the Niles (Mich.) banker, long believed to have been dead, submitted to an operation at Robert Burns Hospital for the recovery of his memory.

In a combination letter of congratulation to the Kimmel claimant, whom she is positive is the real Kimmel, and to Mrs. Maude Quigley of this city, Lardner gave many interesting details regarding the life of the man who says he was slugged, then hidden under an assumed name in Auburn (N. Y.) penitentiary.

"This had never shown any love for George and I should have been more sure," said Mrs. Lardner, "that the portion of the letter addressed to Mrs. Quigley."

It is the fact that the mother and daughter, Mrs. Edna Bonstetter, have refused to recognize Kimmel that has given him such trouble, he says, in establishing his identity.

Since the operation the Kimmel claimant declares his memory has returned and he can now prove his case, regardless of the mother and daughter, who, with an uncle, A. J. Johnson, are among those who doubt his claim as an impostor.

Friends are not permitted to question him regarding his returning memory.

FATE OF TWO CHILDREN.

Brother and Sister Are Shunned About During the Mafial Troubles of the Gillette in Chicago.

(BY DIRECT WIRE TO THE TIMES.)
CHICAGO, May 13.—[Exclusive Dispatch.] Somewhere shunned about during the mafial troubles of Mr. and Mrs. Charles W. Gillette, the children of the couple, Charles W. Gillette, Jr., 4 years old, and Elizabeth Parker, 3 years old, are among those who doubt his claim as an impostor.

The children were not seen at the Gillette summer home at Lake Forest when Mrs. Gillette removed her furniture to another home and placed a "Rent" sign on her former residence. Mrs. Gillette, following the removal of the furniture, followed her into the Lake Forest home last Friday night, all the furniture was taken out and placed in the Lake Forest home, a short distance away.

It was said today that Mrs. Gillette was staying at the home of her sister, Mrs. A. Watson Armour, at Lake Forest, that the children were not there.

Mrs. Gillette at present is in New York on business, but the children are not with her.

BEHIND IN THE WORK.

Arizona Legislature Has So Much Ahead of It That An Extra Session May Be Held.

(BY A. P. WIRE TO THE TIMES.)
PHOENIX (Ariz.) May 13.—The extra session of the Legislature, to begin when the regular session adjourns Thursday night, is expected to be called by Gov. Hunt.

Eighteen of the thirty-eight laws are still in possession of the committee and it is not believed sufficient time remains to take action on all of them. The appropriation bill also remains unpassed by either house.

Although Gov. Hunt said tonight he believed the necessary legislation could be enacted in the coming week of the regular session, President Cummins of the Senate and Speaker of the House declared the Governor indicated he would not call another session unless it was demanded.

VANITY OF ROOSEVELT.

Washington Cartoon On the Sublimity of Roosevelt's Speeches.

(BY DIRECT WIRE TO THE TIMES.)
WASHINGTON (D. C.) May 13.—Theodore Roosevelt, as depicted in a cartoon in a Washington newspaper, is shown in the home of his sister, Miss Roosevelt, in Missouri, today.

The cartoon reproduced in the newspaper is a caricature of Roosevelt, showing him with a very large head and a very small body, and is captioned "The Sublimity of Roosevelt's Speeches."

There are two pictures of Roosevelt in the cartoon. The one on the left shows him with a very large head and a very small body, and the one on the right shows him with a very small head and a very large body.

The cartoon should be modified, and the pictures of Roosevelt should be changed so that they are more like the real Roosevelt. The cartoon is a caricature of Roosevelt, and it is not fair to show him in such a way.

The cartoon is a caricature of Roosevelt, and it is not fair to show him in such a way. The cartoon is a caricature of Roosevelt, and it is not fair to show him in such a way.

FIRST "TIN-PLATE KING" ON THE WITNESS STAND.

Daniel G. Reid's Memory Fails Him at Interesting Junctures in the Suit of the Federal Government to Dissolve the United States Steel Corporation—Exasperates Counsel for Prosecution.

[BY A. P. NIGHT WIRE TO THE TIMES.]

NEW YORK, May 13.—Daniel G. Reid, railroad magnate and former "tin-plate king," a director of the United States Steel Corporation, was called as a witness today in the hearing of the federal government to dissolve the corporation, to all the American tin-plate company was organized.

First of the many leading defendants to appear on the stand, Mr. Reid, a new witness for the government, and time and again his answers to questions regarding financial phases of the tin-plate company's formation was "I do not remember." "I do not recall." His poor memory appeared to exasperate Judge Dickinson, chief counsel for the government, and prompted him to remark:

"You can bring a horse to water, but you can't make him drink. You can subpoena a witness, but you can't make him remember."

The government contends that the American tin-plate company was a part of the United States Steel Corporation, was in itself a combination in restraint of trade, and that the stock was owned by a few persons.

COMPANY GENERALIST.

Mr. Reid told how in 1898 he and Judge William Moore had welded the company out of about thirty-five tin-plate concerns representing some 90 per cent of the industry, but upon the question as to what the properties were worth, Mr. Reid's memory was blank. He said \$15,000,000 in stock went to the underlying syndicate which financed the company, over and above \$10,000,000 preferred and common stock owned by Reid.

Mr. Reid admitted there was competition among the constituent plants before Judge Moore brought them together, but denied there was any intention to monopolize the industry, or that there had been any effort to suppress competition. "Competition was fair and open," he asserted.

At present, Mr. Reid said, reading from statistics which he explained were compiled in the office of the steel corporation, competition had grown to such an extent that the annual capacity of the corporation's tin-plate plants was only 57.7 per cent of the country's total, as compared with an independent capacity of 44.3 per cent.

BENEFITS OF COMBINATION.

"We figured that by combination we could buy supplies cheaper, reduce overhead charges and make the business more profitable," explained Mr. Reid, but persistent questioning by Judge Dickinson elicited the answer that "he might have had the regulation of prices in mind."

Yesses of tin-plate advanced after the organization of the company, but the price was due, he explained, to advances in prices of crude steel and

count it. The demurrer was not sustained and the case is still pending. The memorandum set forth the statement that Boland was much aroused and "determined to trap" Judge Archibald in some deal which would unite him for the bench. Boland thereupon, according to the memorandum, set this trap with the Katydid cum bank transaction with the Erie Railroad as the vehicle, and Edward J. Williams as the agent in this plan. All this was while the lightening case in the Commerce Court. The negotiations were carried out until Boland exposed them to the government officials. The memorandum also stated the circumstances relating to the Marion Coal Company and the Delaware and Lackawanna Railroad here the Interstate Commerce Commission.

Mr. Cockrell participated in the conferences with Atty-Gen. Wickersham later when the Boland related his charges to him. He was asked if Edward J. Williams, when Atty-Gen. Wickersham showed him photographic copies of the papers in the case, had repudiated any of them as he has done before the committee. He admitted that he had signed them.

"Williams did not dispute any of the papers," said Cockrell. "He identified them all and admitted he had signed them."

Mr. Cockrell also said Williams identified the assignment contract in which Judge Archibald was referred to as a "silent party."

This Williams denied before the committee, though acknowledging his signature. On cross-examination Mr. Cockrell was asked if W. F. Boland had said anything about any other Federal judge. Cockrell declared that Boland, in conference with Commissioner of Mines, February 11, last, had an affidavit made by some one in Scranton referring to a breach of contract between a Federal judge in Scranton.

"This was a matter not supported by anything, but the statement at hand," said Cockrell. "It did not appear worth much on its face and it was deemed inadvisable to make any reference to it in the proceedings."

J. H. Rittenhaus of Scranton, a civil and mining engineer, testified that the number of tons in the Katydid cum bank amounted to more than \$60,000. It was negotiated in the option from the Erie by Williams, and \$47,523. The options were for 40,000 tons. The total value of the contents, Rittenhaus estimated, was \$17,523. The options were for 40,000 tons. The total value of the contents, Rittenhaus estimated, was \$17,523. The options were for 40,000 tons. The total value of the contents, Rittenhaus estimated, was \$17,523.

order to keep it from going into the pig tin over which the tin-plate companies of competitors," asked Judge Dickinson.

"My mind is a perfect blank on that subject," said Mr. Reid. Judge Dickinson read from testimony given by Mr. Reid in 1898:

"That was twelve or thirteen years ago; I don't remember anything about it." Reid said.

On cross-examination his memory seemed to improve.

"Was it your intention when you organized the American Tin-Plate Company to monopolize the industry?" asked C. A. Severance, attorney for the defense.

"We figured that by combination we would buy supplies cheaper, reduce overhead charges and make the business more profitable. We did not intend to monopolize."

The witness produced a statement which he said, showed that the steel corporation controlled 255 mills with an annual capacity of \$42,500 tons, or 12.7 per cent of the country's entire capacity.

This compared, he said, with 202 independent mills with a capacity of 17,400 tons, or 44.3 per cent.

ROYAL ARCH IN SESSION.

Suppression of Gambling and Elevation of Saloon Business Declared Purpose of Gathering.

[BY DIRECT WIRE TO THE TIMES.]

BAKERSFIELD, May 13.—[Exclusive Dispatch.] The elevation of the liquor business and the suppression of gambling and other vices which have tended to bring it into disrepute, formed the keynote of the speeches delivered this morning at the opening of the eleventh annual convention of the Knights of the Royal Arch in this city.

Mayor Matlack, in his address of welcome, said that this action by the liquor dealers was the best weapon of defense against prohibition, and Thomas W. Rulo, Grand Vallant Comptroller, declared in his response that this is the chief purpose of the order. Rulo said the failure of the city and county officials to revoke licenses of saloons that cater to vice is the worst blot that has been cast on the saloon interest.

Nearly a hundred delegates from all parts of the State, Utah, Nevada and Arizona, are present, and others are expected tomorrow. Applications have been received from both Texas and Louisiana for admission into the State. Duke said there was no doubt their local lodges to lapse.

The report of the secretary showed 400 new members to the new lodges added during the past year.

WHAT CHILDREN SHOULD EAT.

English Doctors' All "Hot Up" About the Question, But Agree Boys Like Their Own Cooking Best.

[BY DIRECT WIRE TO THE TIMES.]

LONDON, May 13.—[Exclusive Dispatch.] Members of the National Food Reform Association and others met in conference in Guild Hall today to discuss the question of diet for school children. Diverse opinions were expressed as to what should or should not be given to school children in the matter of food.

During the discussion the point was emphasized that it is essential to provide a singularly unappetizing food, if prepared by themselves, to that provided by the doctor. The physician at Rugby, Dr. Duke, said there was undoubtedly need of better feeding in girls' schools. Girls from 11 to 15, he said, are practically in a state of sexual infancy, but here at this age, the sitting of food is most important to their health. While adults should arise from the table hungry, said the doctor, children should reach a state of satiety.

All boys will agree with Dr. Duke's dictum, that besides a substantial breakfast, the evening meal should include eggs, jam, fish, potted meats, cakes, treacle and honey.

LOTTIS ACCUSES WIFE.

Chicago Jeweler, Who Slapped Helpmeet's Face, Tells of California Escapades in Divorce Cross-Bill.

[BY DIRECT WIRE TO THE TIMES.]

CHICAGO, May 13.—[Exclusive Dispatch.] Charges of infidelity and intoxication are made against Mrs. Harmon Lottis, wife of Samuel T. A. Lottis, the State Street Jeweler, in a new cross-bill filed by Mr. Lottis today before Judge Edward Mangum, sitting in the Circuit Court.

Lottis figured in a sensational affair at the South Shore Country Club, when he publicly slapped his wife and had trouble explaining to the club governors why he should not be expelled.

Mrs. Lottis recently filed a bill for divorce in which she charged her husband with extreme and repeated cruelty.

Lottis, in his bill, charges that his wife, shortly after their marriage, frequently appeared in public places in a condition of helpless intoxication, and that on various occasions was intoxicated in her home.

In the fall of 1910, the bill sets forth, Mrs. Lottis went to Bakersfield, Cal., and was absent for several days. While there, she had an affair with a man named William Verner. Subsequent to her return to Chicago, it is alleged, Mrs. Lottis carried on clandestine correspondence with Verner and carried a picture of him and a man of the name of Kirkman in her pocket.

Lottis further alleges in his bill that his wife boasted that she was in love with Kirkman and that he was in love with her.

CLAIMS WORD FROM STEAD.

Medium Pushes Women Across Room Crying, "Enter the Boat."

[BY DIRECT WIRE TO THE TIMES.]

MANCHESTER (Eng.), May 13.—[Exclusive Dispatch.] The Daily Mirror says that it hears that a message was received from William T. Stead, who perished on the Titanic, through a medium at a seance at Rothney on April 26. The medium, who is the wife of a friend of Stead's, swooned. She jumped up, and seizing the other women there, pushed them across the room, urging them to "Enter the boat."

Afterwards she cried out "God pity us." She followed this with "Thy will be done," and "Nearer My God to Thee."

After an interval the medium spoke again. She said: "I know I am here. I was here before but I was unable to make an appeal to all God-fearing men and women for help. I wish to break in the thought. It is easier to break in here than elsewhere. Could you see the misery of the lost as I saw it, your hearts would bleed for them. They are heart with all their cherished hopes, and plunge into the

terrors of the unknown, you would weep and pray."

Mr. Stead, through the medium, was told of the foolishness of the rich and possessions of this earth. It was at his suggestion, so the spirit said, that the band played "Nearer My God to Thee," as the ship went down.

THE ERA OF "BOY COPS."

They Will Have Charge of Central Park in New York When the Real Officers Are Attending a Review.

[BY DIRECT WIRE TO THE TIMES.]

NEW YORK, May 13.—[Exclusive Dispatch.] A corps of boy policemen will be organized to take charge of Central Park next Saturday, when nearly all the regular cops will be away because of the annual police parade. Saturday is the first day for May parties.

The juvenile policemen are to wear gilt stars and are to have the power of arrest when they see any youngster doing wrong. The arrested juvenile is to be taken before the leader of the party for punishment.

In the case of a grown-up taking advantage of the absence of the regular policemen, the boy cops are to call upon the nearest park laborer for assistance in taking the wrongdoer to the Arsenal station. The boys are to have whistles so they may summon help.

Cops of the park ordinance are to be given to the juvenile police force so they may know what the law is.

GUARDIAN FOR MISS ASTOR.

One Is Named to Look After Interests of Girl Who Preferred Her Mother to Her Father.

[BY DIRECT WIRE TO THE TIMES.]

NEW YORK, May 13.—[Exclusive Dispatch.] Surrogate Fowler today named a Perry Osborn, a lawyer of No. 13 Nassau street, as guardian for Miss Astor, 18 years old, daughter of the late Col. John Jacob Astor. No bond was required.

Osborn will look out for the interests of the young heiress, who, since her father was divorced, has lived with her mother, Mrs. Ava Willing Astor.

It is expected the Astor will will come up before Surrogate Fowler for probate later in the week.

THE SIX-YEAR TERM.

Senate Judiciary Committee Decides to Report Favorably Resolution to Extend Presidential Term.

[BY A. P. NIGHT WIRE TO THE TIMES.]

WASHINGTON, May 13.—The Senate Judiciary Committee decided today to report favorably the resolution to extend the Presidential term of office to a single term of six years. A minority report favoring a single term of four years also will be made from the committee. The reports are expected in a day or two.

There was no formal adoption of the Works measure, as its phraseology has not been worked out, but this will be undertaken immediately by a sub-committee.

It may finally be acted upon at a special meeting of the Judiciary Committee this week. In any event, it is expected to be reported immediately following the committee's regular meeting Monday.

The action practically is unanimous to make a President ineligible for a second term, but four members of the committee favor making the term four years instead of six.

The House Committee on Judiciary has pending a joint resolution of the same purport introduced by Representative Clayton of Alabama, chairman of that committee.

If Congress adopts the change, an amendment to the Constitution will have to be ratified by three-fourths of the State.

BURBANK TO TELL.

TULARE, May 13.—Father Burbank will address the dairymen of this district at the next regular meeting soon to be held here of the Tulare County Dairymen's Association. Plans for securing Mr. Burbank were discussed at the meeting last evening. Mr. Burbank will be asked to tell the dairymen just how valuable is the new spineless cactus for use as silage. Silage and silos were the chief topics of discussion at the meeting of the association held yesterday evening. In addition to the plans for the immediate organization of the cow testing association, plans for the cow testing work have been adopted and the dairymen generally have signed their contracts agreeing to go in for the work and pay their share of the expenses. The authorities of the State farm at Davis have been asked to furnish men to do the work.

SIoux FALLS (S. D.) May 13.

[By A. P. Night Wire.] Col. Roosevelt is coming to South Dakota to make a personal fight for the ten Republican delegates to the National Convention. He will make a flying visit to the fall of 1912, spending the day in the State. It is expected here that Taft and La Follette will also visit this State. The State primary will be held June 4.

TUESDAY MORNING

OROZCO ORDER BEFORE A COURT-MARTIAL.

[BY DIRECT WIRE TO THE TIMES.]

MEXICO, May 13.—[Exclusive Dispatch.] Col. Orozco, the father of the rebel leader, has been deprived of his command, and is virtually a prisoner here tonight awaiting trial by court-martial. The colonel is accused of the death of the son of the general, because of the part "the colonel" took in the organization of the provisional government in Juarez.

It is pretty clear now that Gen. Orozco had no hand in bringing President Carranza to power. Emilio Vasquez Gomez from San Antonio, Tex., to act as provisional president, and the rebel chief appeared to be punishing everybody who took part in the move, even including his father. The general was plainly angered that his father should accept the post of War Secretary from Carranza without consulting the commander-in-chief.

SLAUGHTER OF REBELS.

(Continued From First Page.)

heavy columns that Orozco hitherto has used to protect his center. The Federal army moved north yesterday from Peralta in full sight of the rebel positions. Full sight of the Federal artillery was placed on low lying hills and the surrounding Conchos and the rebel army posted on higher hills. The artillery duel lasted the greater part of the day. Federal shells did considerable little damage in the rebel ranks and caused some deaths.

The rebels were not demoralized, but their intention to induce the Federal to leave their base and meet in the open.

Gen. Salazar sent word to Orozco that he had taken the fire of the Federal army. The Federal army is now in the new field position of the rebel army. The staff headquarters of the Federal army are situated north of the rebel army. The rebels are now in the process of retreating. The rebels are now in the process of retreating. The rebels are now in the process of retreating.

LACK OF WATER LOSES A BATTLE.

[BY DIRECT WIRE TO THE TIMES.]

MEXICO, May 13.—[Exclusive Dispatch.] Lack of water caused by a train wreck, forced Gen. Orozco to retreat from Conchos. The rebels after a severe fight with the Federal army in command of Gen. Huerta, pushed in the trenches where they defeated the Federals several weeks ago.

Rebel officers admit their losses in yesterday's and Saturday's engagements were heavy, but maintain the losses of the Federal army were even heavier. Details of the battle are hard to obtain, but based on the stories of the wounded brought to the rebel lines, it is estimated at from 500 to 1,000.

When the fight around Conchos broke out, Orozco had twenty cars of water at Conchos. There was only one well at Conchos which the rebels could reach, and this was soon exhausted. The battle raged under a blazing sun and on blistering desert roads. The rebels were forced to retreat. The rebels were forced to retreat. The rebels were forced to retreat.

heavy columns that Orozco hitherto has used to protect his center.

The Federalists moved north yesterday from Juarez in mass trains, taking their positions in full sight of the rebels. Federal artillery was placed on low lying hills and flats surrounding the town and facing the rebel guns on higher hills. The artillery did little damage to the rebel ranks and casualties were few.

The rebels were not demoralized, it being their intention to induce the Federalists to leave their base and meet in the open.

Gen. Huerta sent word to Orozco yesterday that the fire of the Federalists was not worrying him.

Rebels in the new field position of the rebel army. The staff headquarters of Orozco are situated now thirty-five miles in the rear.

These movements northward reveal the extensive retreat of the Federalists. The Federalists occupy a position about Gomez and the pursuit of the retreating liberals appears to have ceased. A small garrison has been left at the abandoned town of Juarez. Heavy guns and thousands of men guard the hills at Rellano, a locality considered by the rebels impregnable.

LACK OF WATER LOSES A BATTLE.

(BY DIRECT WIRE TO THE TIMES.)

RELLANO (Mex.) May 13.—[Exclusive Dispatch.] Lack of water caused by a train wreck, forced Gen. Orozco to retreat from Conejos to Rellano after a severe fight with the Federalists in command of Gen. Huerta. The rebel troops are now strongly posted in the same trenches where they defeated the Federalists several times.

Rebel officers admit their losses in yesterday's and Saturday's engagements were heavy, but maintain the loss of the Federalists must have been equally great. Details of the battle are hard to obtain, but from the stories of the rebels brought here, the rebel loss was estimated at from 500 to 600.

When the fight around Conejos broke out, Orozco had twenty cars of water at Rellano. There was only one car at Conejos which the rebels took and this was soon exhausted. The battle raged under a scorching sun and on blistering desert soil. The Federalists, who were in command of the water, cut off the water cars brought from Rellano, but an open switch and a train wreck caused the water to be cut off. Orozco's army, inexperienced, train crew and water cars, were forced to retreat from the tank at Rellano.

He was further suffering on the day of his loss. Orozco's army, inexperienced, train crew and water cars, were forced to retreat from the tank at Rellano.

He was further suffering on the day of his loss. Orozco's army, inexperienced, train crew and water cars, were forced to retreat from the tank at Rellano.

REBELS MOBILIZE ARMY AT RELLANO.

(BY A. P. NIGHT WIRE TO THE TIMES.)

RELLANO (Mex.) May 13.—Gen. Orozco, the rebel chief, today mustered his army for a final stand against the advancing Federalists.

Admitting that the government forces are better equipped in artillery, he declares he is withdrawing his troops to the vicinity of Rellano so they may have the advantage of fortifications and trenches from which, three weeks ago, the rebels nearly annihilated the Federal command of Gen. Gonzalez Salas, who committed suicide.

Though rebel casualties in the engagement of yesterday were great, the liberal leaders declare the government forces suffered heavily, and, except for the loss of important positions at Conejos, they claim an even break in the fighting.

All the generals and their commands have been ordered to mobilize here, where the entire fighting strength of the insurgents will be thrown against the enemy.

UNCERTAIN ABOUT GOMEZ.

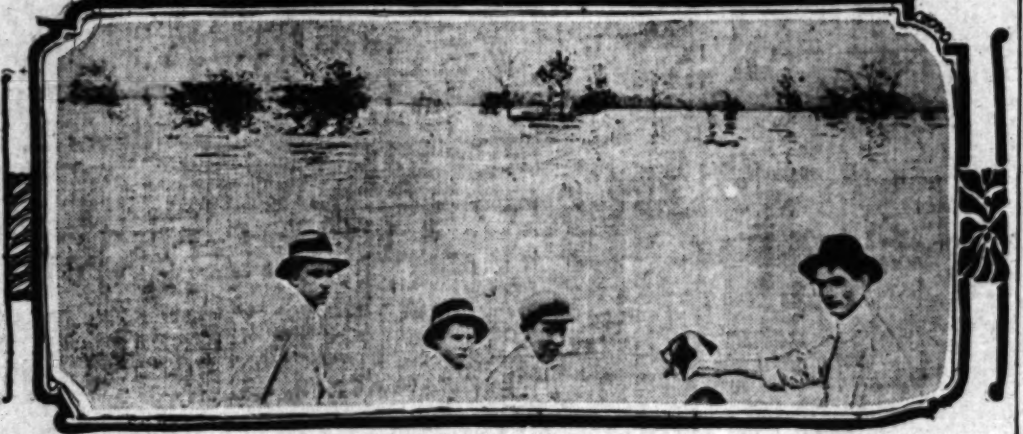

(BY A. P. NIGHT WIRE TO THE TIMES.)

WASHINGTON, May 13.—[By A. P. Night Wire.] Whether any movement will be made by the United States authorities to apprehend Emilio Vasquez Gomez on a charge of violating the neutrality laws, was not known at the State Department today. It was declared this was a matter for the Department of Justice. The significant remark was made at the State Department, however, that it was probable with the legal advice which Gomez has had, he undoubtedly was well advised of his position before he fled from Juarez.

COMET HEADED TOWARD EARTH.

LONDON, May 13.—[Exclusive Dispatch.] Dr. Hansen, the Danish astronomer, notified Greenwich observatory tonight that the tail of a comet of intense magnitude was observed at 3 o'clock a.m. on May 16 in constellation Cygnus. The comet has since been located by Greenwich observers and is now visible every night through telescopes.

Fighting to Keep the Mississippi River Within Bounds.

Flood Scenes in Louisiana. At the top is a picture of convicts working to strengthen a weak levee on the Mississippi. Below is shown a scene along the river where flood sufferers at Anchorage, La., watch the destruction of their homes and crops.

SAND BOILS ON THE LEVEE.

(BY DIRECT WIRE TO THE TIMES.)

EL PASO (Tex.) May 13.—[Exclusive Dispatch.] Pascual Orozco, the rebel chief, driven back to his trenches at Rellano from Conejos, refuses to admit that he was defeated yesterday, but declares he inflicted heavier loss upon the Federalists than he sustained himself and that his men were virtually all killed.

Admitting that he was driven from Conejos by the heavy artillery fire of the Federalists, Orozco says he considers himself now in a better position than ever.

There was fighting today between his right flank and the Federalists at Sierra de Bandera, directly west of Conejos. Orozco says that Gen. Arguedas and Campos, who were sent west on a flank movement, have completed their task and he believes he has forces behind him. Orozco apparently does not intend to make another advance immediately unless his flanking forces become engaged.

As that it is necessary to throw his main army south again, Orozco declares that lack of water on the field at Conejos had as much to do with his retreat as the fire of the Federalists.

The heaviest fighting yesterday was with the Federal column commanded by Gen. Trucy Aubert, who was wounded. Prisoners taken by the rebels from the Federalists' ranks declare that the havoc was terrible. The rebel division suffered heavily, and the Federal artillery officers were shot, however.

WATER IN THE STREETS.

(BY A. P. NIGHT WIRE TO THE TIMES.)

NATCHEZ (Miss.) May 13.—Back water has been flowing into the streets of Vidalia, La., and it is considered possible that it will reach a depth of four feet. People there are provided with boats. It is believed the water will recede within two weeks.

CAMPAIN OF EDUCATION.

(BY A. P. NIGHT WIRE TO THE TIMES.)

WASHINGTON, May 13.—A campaign of education on control of flood waters, and reclamation of arid lands, has been inaugurated by Senator Newlands of Nevada. A distinguished party of legislators and officials, guests at luncheon at the Senator's home last night, heard the first of a series of illustrated lectures on the subject.

A distinguished party of legislators and officials, guests at luncheon at the Senator's home last night, heard the first of a series of illustrated lectures on the subject.

COVERED WITH WATER.

(BY A. P. NIGHT WIRE TO THE TIMES.)

NEW ROADS (La.) May 13.—Circling the bluffs of False River, which had suffered temporarily to check its progress, flood water from the levee break at Torras is today spreading over the towns of the thickly-settled country south of here. Plantation after plantation along the Mississippi bottoms, some of them the largest and richest sugar cane producing fields on the west bank of the river, are covered with water. A report from Irvinville, fifteen miles north of False River, reached here today that the water was fifteen feet deep in that town. One hundred and fifty persons are marooned.

WALL PAPER MEN ON TRIAL.

(BY A. P. NIGHT WIRE TO THE TIMES.)

CLEVELAND, May 13.—Four wall paper manufacturers and four wall paper jobbers, charged with conspiracy in restraint of trade under the criminal clause of the Sherman Law, were placed on trial in the United States District Court today. A jury was soon obtained.

Attorney T. H. Gary, for the defense, said the defendants would prove sufficient justification in not selling to Frank Hall, owner of 5 and

NEWS REPORTS FROM CORRESPONDENTS OF THE TIMES.

HEAVY VOTE IS EXPECTED.

Voters Manifest Much Interest in Result.

Alleges Trees in Rows Are Not Always Artistic.

However, Flowering Eucalypti Will Be Spared.

(Office of The Times, 22 S. Fair Oaks avenue.)

PASADENA, May 13.—Pasadenans are looking for the heaviest vote ever cast in the city today. The polling places will open at 8 o'clock this morning and close at 6 o'clock tonight. The election will be the first for the new division precincts. There are thirty-four precincts. The polling places are:

Precinct One, at No. 510 Elizabeth street; Two, No. 1384 North Marano avenue; Three, corner of Lincoln avenue and Montana street; Four, No. 1384 Lincoln avenue; Five, No. 1123 North Fair Oaks avenue; Six, rear of No. 1239 North Marano avenue; Seven, rear of No. 485 Jackson street; Eight, rear of No. 733 Stevenson avenue; Nine, rear of No. 26 North Chester avenue; Ten, rear of No. 37 North Michigan avenue; Eleven, rear of No. 573 North Madison avenue; Twelve, No. 123 East Orange avenue; Thirteen, Lincoln school, corner of Lincoln avenue and North street; Fourteen, No. 400 North Pasadena avenue; Fifteen, No. 251 Mary street; Sixteen, No. 101 North Fair Oaks avenue; Seventeen, No. 51 West Colorado street; Eighteen, City Hall; Nineteen, No. 59 North Marano avenue; Twenty, No. 263 East Colorado street; Twenty-one, No. 69 North Los Robles avenue; Twenty-two, corner of Lincoln avenue and Walnut street; Twenty-three, No. 1176 East Colorado street; Twenty-four, rear of No. 123 South Hudson street; Twenty-five, No. 410 East Colorado street; Twenty-six, No. 35 South Broadway; Twenty-seven, No. 41 West Green street; Twenty-eight, No. 385 West Colorado street; Twenty-nine, rear of No. 123 South Hudson street; Thirty, No. 256 South Fair Oaks avenue; Thirty-one, rear of No. 412 Magnolia avenue; TREES WILL NOT FALL.

The City Board of Commissioners was appealed to yesterday to determine the delicate question of whether a row of trees across to be artistic and is merely rustic, as applies to a millionaire residential section of the city.

The trees that were under discussion are eucalyptus and extend along Hillside road between the palatial residences of L. Y. Harney and John B. Miller, president of the Southern California Edison Company. According to the gardener of the Harney place they had been planted "rough" and according to Miller, who presented a voluminous petition pleading that no ax be used on them, they are "most artistic."

Miller came out victorious in the

MINISTER'S SON ISSUES MANY FRAUDULENT CHECKS

WHITTIER, May 13.—Because he had to have a good time and dress like other boys, Horace M. Harvey, aged 19, a student in the local High School, and the son of Rev. and Mrs. John W. Harvey of No. 144 North Washington avenue, was arrested in Los Angeles about 2 o'clock yesterday morning by Constable R. B. Way and Deputy R. M. Gordon of this city, and taken to the County Jail, where he will be held to answer before the Superior Court on a charge of forgery, placed against him for a check passed on Harper & Reynolds, to which the name of C. E. Cook had been forged. The complaint was sworn to by R. B. Way.

It is alleged that young Harvey has perpetrated a series of forgeries, covering three weeks time, in which checks amounting to \$175 were drawn on the First National and Whittier National Banks of this city, with the names of prominent local men affixed. The checks ranging in amounts from \$5 to \$25.

The boy's method of operating was to present the checks to the various Los Angeles business houses, among which are Dyer-Clement, A. G. Spaulding & Brother, California Hardware and Arms Company, Harper & Reynolds Hardware Company and Hamburger's, and also San Ferri, J. A. G. Frick, grocery stores at Los Nietos.

The first check was issued April 29. Young Harvey had made application to join the National Guard, and had been drilling with them, wearing the uniform and acting as a guard at the Santa Monica road races, held May 4. He was in Los Angeles all during Shrine week, and played in a band in the parade, Friday, May 10. He is called in the Whittier High School, and is scheduled to appear in the class play at commencement time.

According to the officers the lad has confessed to the forgeries and stated that the lack of spending money while in school is the reason for his error. His father is a retired minister and a wealthy land owner.

BASEBALL PLAYER DIES. Funeral services for Andy Briswell, aged 21, prominent in Southern California baseball circles, and son of Mr. and Mrs. Andrew Briswell, were conducted at the family home in Los Nietos, this afternoon, by Rev. H. E. McGrew of the Friends Church.

The deceased was well known in this

clash and after Park Superintendent Jacob Albrecht had given his views upon the matter it was determined that the trees should not be felled as was planned. But one had been cut when the controversy opened.

In his protest to the cutting of the trees Miller wrote in part: "The trees on my side of Hillside road are flowering eucalyptus, more than twenty years old, rare and beautiful in their bloom, as well as most artistic in the denseness and irregularity of the sky line created by not another such collection of flowering eucalypti in Southern California that I know of, and aside from the great pity it would be to sacrifice such beautiful trees, I was greatly shocked to think that a move would be made without in any way notifying or consulting abutting property owners."

The flagstaff being erected on an ornamental base at Library Park by the local post of the Grand Army of the Republic will be dedicated June 14.

The office of assistant-chief of the Pasadena fire department was created yesterday by the Board of City Commissioners. No appointment has yet been made. The office will come into existence June 1 and the salary will be \$110 a month.

Dr. F. W. Snow, secretary of the Pasadena Board of Health, is expected to issue a reported case of smallpox. Yesterday orders were issued that all pupils of the High School and the Columbia, Jefferson and Grant schools who have not been vaccinated within seven years must be vaccinated at once or remain out of school.

The Municipal Band will march in the Memorial Day parade, the 30th inst.

A large party of Monrovia boosters visited Pasadena yesterday afternoon and received a telegram announcing the death of a niece, Mrs. Ruth M. Manner, and Lulu Tiedt, formerly of Los Angeles, in an automobile and train collision near Argyle, Minn.

Hotel Vista del Arroyo, Pasadena. Suburban property in beautiful La Canada Valley. H. L. Hayman. Wadsworth suits pants.

RAILROAD SELLING LANDS.

Southern Pacific is rapidly transferring its title to prospective settlers—Title Expected.

LANCASTER, May 13.—The sale of the Southern Pacific land holdings in the Antelope Valley goes merrily on and this last week saw an additional \$8,000 of acreage sold. The railroad company to the hands of private investors.

Some of the choicest of the S. P. land has already been marketed during this sale. Prices range from \$7.50 to \$10 an acre, averaging slightly higher than the lands sold two weeks ago. The railroad company has a land agent on the ground, stationed at Lancaster, and he is kept busy showing the lands to investors.

Much good has resulted during the past week from showers that have fallen all over the valley, and especially in the west end, along the foothills, where most of the crops are. Coming just at the right time, this rain has been a great relief to the crops to the hay and grain raisers in the farming belt, and it is believed that it has done much to hasten the alfalfa raising in the irrigated section.

Coronado rates are reasonable.

JAPANESE IS VICTIM OF SEA.

Long Beach Has First Ocean Tragedy of Year.

Seized With Cramps, a Man Sinks and Drowns.

Pioneer Florist Drops Dead in Business Place.

Long Beach.

LONG BEACH, May 13.—The first drowning of the season occurred this afternoon, when C. M. Park, a Japanese 30 years old, living at No. 2 Olive court, Los Angeles, went beyond his depth in the surf, took a cramp and went to the bottom in full view of hundreds of people.

Park and a companion came down from Los Angeles, and, donning bath suits, entered the water at the foot of Linden avenue about 3 o'clock. Both had waded out to their necks when Park called to his companion for help. Before assistance could reach him, he suddenly sank, and the body of the victim was seen floating on the surface of the water.

People in an apartment-house telephoned the life guards at the bath-house and Rix and Scott, racing six blocks, dashed into the surf in search of the victim. When they suddenly appeared, suddenly Rix stepped upon the body and it was brought ashore after being under water ten minutes. The body was taken to the coroner's office and a local morgue awaiting disposition by the Coroner.

George A. Lindsay, a florist and for eighteen years a resident of Long Beach, dropped dead this morning while in his nursery on Locust avenue. Lindsay, who had been in ill-health for some days, was selling a neighbor some plants and talking about a pain from which he had been suffering, when he suddenly sank and crumpled to the ground. Death came before medical help arrived. The cause of death was not ascertained. Lindsay was a native of Scotland and 61 years of age. He leaves a widow and four children.

PTOMAINES-POISONING.

Elwood D. Harris, one of the oldest mail carriers in the local service, was taken ill yesterday, and today he is in the hospital. He is regarded as a patient with all the symptoms of ptomaine poisoning. Harris ate a hearty breakfast of fish and a combination of food and fruit is thought to be responsible.

NEWS BRIEFS.

Ground was broken this morning on the northwest corner of Broadway and American avenues for a three-story brick-and-steel business block, to be erected by James Kennedy, at a cost of \$50,000. It occupies a site 75x150 feet and will be a landmark in the city.

Mrs. Olga Clark, aged 26, is at the home of her mother, Mrs. Prinslaw, on Locust avenue, suffering from influenza. She was taken to the hospital yesterday and is now in the hospital. She is regarded as a patient with all the symptoms of ptomaine poisoning. Harris ate a hearty breakfast of fish and a combination of food and fruit is thought to be responsible.

MINING MAN IN A CONTROVERSY.

SANTA ANA BANKER SUES BY DISAPPOINTED CUSTOMER.

Buys Mining Stock and Not Liked the Way Things Are Handled. He Defaults on Payment, and Wants Matter Adjusted by the Courts of Orange County.

SANTA ANA, May 13.—In an endeavor to hold a stockholder for the debt of the Gold River Mining Company, P. W. Kuster has brought suit against C. F. Mansur, a banker and capitalist of this city, and the company.

Kuster alleges that on April 17, 1908, Mansur secured 15,000 shares of the company's stock, paying five cents per share and agreeing to pay an additional ninety-five cents.

The remainder of \$14,250 was never paid, alleges Kuster.

The complaint states that the stock book indicates that the stock was transferred from W. E. McEuen to Mansur, but that as a matter of fact the stock issued was from the treasury. Kuster alleges that the company is insolvent and unable to pay a judgment of \$4750 entered in favor of Mrs. A. B. Kuster, a widow, and he seeks judgment against Mansur for that amount, alleging at the same time that Mansur owes the company \$14,250.

WILL PLAY BALL.

The Ministerial Association today accepted the challenge of the Santa Ana schoolmasters to a baseball game, with the addition that there also be a 100-yard dash and a tug-of-war.

The ministerial and pedagogical athletes are to meet on May 20 at Lincoln Park, the proceeds to go to the Day Nursery, a charitable institution.

Fatal.

TWO FIGHT DEADLY DUEL IN CUCAMONGA STREETS.

ONTARIO, May 13.—As the result of a bloody duel at Cucamonga, to the northeast of this city, at a late hour last night, Satero Guino and Aunis Peris, the principals, are dead, in a local morgue, the former riddled with five bullet wounds, and with deep cuts and slashes about the head and arms, and the latter stabbed through the heart.

The duel is said to have centered about a fair senorita of the Mexican quarters, and the killing followed a sheathed an ugly-looking knife and made for him. Peris met his assailant with a revolver and fired five shots into his body at close range, and then drew a knife.

While attempting to hold off the hand of Guino, which held the knife, Peris slashed him with his own blade and when Guino commenced to weaken as a result of the shots, Peris released him and attempted to finish him with his knife. Guino, however, made a desperate rally and lunged his

Excursion rates to Coronado.

Mexico Agreeable.

IMPERIAL VALLEY WATER PROBLEM TO BE SETTLED.

EL CENTRO, May 13.—Much satisfaction is felt here over a telegram from Washington, D. C., sent by George L. Melton, secretary of the Imperial Valley Irrigation District, stating that "the Mexican government has notified the State Department that it will refer to a commission for immediate and final settlement, questions regarding canal right of way, control of the Colorado River, and division of waters of the Colorado."

Secretary Melton, who is representing the interests of the people of the Imperial Valley, has been in Washington for several weeks in an effort to make known the condition and needs of the valley and its water system. He has had several conferences with Senator Works and has also submitted to President Taft and the Secretary of State a brief explaining the international difficulties

confronting the irrigation district and the necessity of an agreement with Mexico in regard to carrying water in canals through Mexican territory. Notwithstanding the attention claimed by the Mexican government, Melton has secured a hearing, and his telegram shows that he has succeeded in his project of having the matter of the control of the Colorado River and the use of its waters submitted to a joint commission.

Receiver W. H. Holabird is making preparations to place two drops in the Alamo River, below the Texas dam, to check the cutting back of the river. This cutting is due to the scouring action of the large volume of water discharged while repairs were in progress at Sharp's heading. The drops will be constructed of steel piling and heavy timber. Mr. Holabird is asking for bids on the hauling of seven carloads of lumber from El Centro to the Rapids dam.

San Diego.

FIVE HUNDRED MODERN KNIGHTS.

RIVERSIDE VISITED BY COLUMBUS FRATERNITY.

Special Trains Brought Delegations from San Bernardino, Redlands, Los Angeles and Other Points—Grand Officers of Order Are Elected and Installed.

RIVERSIDE, May 13.—Delegates to the number of 500, members of the Knights of Columbus, representing all parts of the State, were in the city yesterday to assist in the institution of a local council of the order here. The ceremonies occupied all day, closing with a sumptuous banquet in the evening.

Special trains brought delegations from San Bernardino, Redlands and other points, while another from Los Angeles accompanied Knights from that city and way points, as well as prominent members of the order from San Francisco.

Solemn high mass was celebrated at St. Francis de Sales Church at noon. Rev. Father Mitchell of St. Francis officiating. Rev. Father Peter McNellis of Riverside preached the sermon, which was in the nature of an address of welcome. The church was not large enough to accommodate the throng that gathered for the services, more than 200 having to remain in the street.

The first degree was exemplified at 1:30 o'clock in the morning by San Bernardino Council, the second degree at 2 o'clock by Redlands Council, assisted by Judge Paul McCord, and the third degree at 3 o'clock by the State degree team, in charge of Neil Power, State Deputy.

Thirty of the fifty Knights who took the degrees go in as charter members. Officers were installed as follows:

Grand Knight, E. M. Doyle; Past Grand Knight, Thomas Conney; Chancellor, H. M. Merrick; Warden, Thomas Yall; Advisors, Thomas Brennan; Inside Guard, Henry M. Besseman; Outside Guard, Martin Austin; Recording Secretary, Francis Delis; Financial Secretary, H. M. Blaney; Treasurer, John Brady; Chaplain, Rev. Peter McNellis.

During the day the ladies were entertained at the Glenwood Mission Inn by Frank A. Miller, who had arranged musical programs in the cloister for the benefit of the visitors.

GOOD ROADS WORK.

Superior Karl Carlton, who returned today from a trip to the desert, reports the road in excellent condition between Banning and Whitewater, with the exception of a stretch this side of the point of hills near the Whitewater River. This will be attended to at once by Supervisor Crane.

A bridge will be constructed at Snow Creek, in order to avoid crossing a deep sandy wash, and the work added to that recently accomplished in cutting across the point of hills, and so avoiding the Whitewater River. Mr. Carlton thinks will go far to making the entire road most acceptable as an ocean-to-ocean highway.

STATE CONVENTION.

The sixth annual State convention of the P. O. Society will be held in this city May 15, 16 and 17. Delegates will be present from all over the State, including the following: Grand chapter officers: President, Mrs. Addie A. Sexton; chapter N; vice-president, Mrs. Margaret Rominger; chapter G; second vice-president, Mrs. M. M. Smith; chapter N; recording secretary, Mrs. Patricia Beatty; chapter I; corresponding secretary, Mrs. Marian MacCracken; chapter K; treasurer, Mrs. Emma McKain; chapter W; organizer, Mrs. Ella J. Brown; chapter E.

The Wednesday afternoon session with a luncheon at the First Methodist Episcopal Church. From this point adjournment will be taken to All Saints Universalist Church, the State president, Mrs. Addie Sexton of Alhambra, will be heard in an address on Friday afternoon.

CLEAN-UP DAY.

The party board at its regular monthly meeting this morning designated Saturday, May 25, as "Clean-up Day," and the Council will be asked to make the date official. The street department will hold wagons in readiness to remove rubbish and weeds cleared from parking spaces and vacant lots.

CONFERENCE MUST DO IT.

Methodist Committee Is Not Content to Let the Human Consensus Decide the Issue of Amusement. Decide the Issue of Amusement.

MINNEAPOLIS (Minn.) May 13.—Unless the general conference of the Methodist Episcopal Church overrules the action of the committee on the status of the church, that part of paragraph No. 260 of the church discipline, which especially prohibits dancing, card playing and kindred amusements, will remain a church law.

By a vote of 100 to 51 the entire committee voted today to reject the report of the majority of the subcommittee which favored leaving the amusement question to the "conscience" of the individual member.

Debate in the committee was strenuous. Pless were made by delegates from foreign lands to retain the paragraph, Dr. De El Tong, a Chinese delegate, through an interpreter, making an effective speech.

A. J. Wallace, Lieutenant-Governor of California and chairman of the committee, made an address in favor of striking out the "catalogue" of prohibited amusements.

At the business session today the conference, amid great enthusiasm, approved the new republic of China and ordered that its flag be hung with that of the United States above the speaker's platform.

Tonight's session was given over to the report of the Committee on Book Concerns of the church.

ANGELENO MAIDS RETURN.

Back from a Trip Around the World They Are Reported to Have Been Quite Popular on Board Ship. [BY DIRECT WIRE TO THE TIMES.]

NEW YORK, May 13.—[Exclusive Dispatch.] Among the arrivals at the liner George Washington of the Hamburg-American Company today were Mrs. Modini-Wood, her grown daughters, Elizabeth and Florence, and her 3-year-old daughter Mona of Los Angeles. The other daughters, who attracted great attention on the ship because of their beauty, are completing a trip around the world under the chaperonage of their

MINNEAPOLIS (Minn.) May 13.—Unless the general conference of the Methodist Episcopal Church overrules the action of the committee on the status of the church, that part of paragraph No. 260 of the church discipline, which especially prohibits dancing, card playing and kindred amusements, will remain a church law.

By a vote of 100 to 51 the entire committee voted today to reject the report of the majority of the subcommittee which favored leaving the amusement question to the "conscience" of the individual member.

Debate in the committee was strenuous. Pless were made by delegates from foreign lands to retain the paragraph, Dr. De El Tong, a Chinese delegate, through an interpreter, making an effective speech.

A. J. Wallace, Lieutenant-Governor of California and chairman of the committee, made an address in favor of striking out the "catalogue" of prohibited amusements.

At the business session today the conference, amid great enthusiasm, approved the new republic of China and ordered that its flag be hung with that of the United States above the speaker's platform.

Tonight's session was given over to the report of the Committee on Book Concerns of the church.

ANGELENO MAIDS RETURN.

Back from a Trip Around the World They Are Reported to Have Been Quite Popular on Board Ship. [BY DIRECT WIRE TO THE TIMES.]

NEW YORK, May 13.—[Exclusive Dispatch.] Among the arrivals at the liner George Washington of the Hamburg-American Company today were Mrs. Modini-Wood, her grown daughters, Elizabeth and Florence, and her 3-year-old daughter Mona of Los Angeles. The other daughters, who attracted great attention on the ship because of their beauty, are completing a trip around the world under the chaperonage of their

FIVE HUNDRED MODERN KNIGHTS.

RIVERSIDE VISITED BY COLUMBUS FRATERNITY.

Special Trains Brought Delegations from San Bernardino, Redlands, Los Angeles and Other Points—Grand Officers of Order Are Elected and Installed.

RIVERSIDE, May 13.—Delegates to the number of 500, members of the Knights of Columbus, representing all parts of the State, were in the city yesterday to assist in the institution of a local council of the order here. The ceremonies occupied all day, closing with a sumptuous banquet in the evening.

Special trains brought delegations from San Bernardino, Redlands and other points, while another from Los Angeles accompanied Knights from that city and way points, as well as prominent members of the order from San Francisco.

Solemn high mass was celebrated at St. Francis de Sales Church at noon. Rev. Father Mitchell of St. Francis officiating. Rev. Father Peter McNellis of Riverside preached the sermon, which was in the nature of an address of welcome. The church was not large enough to accommodate the throng that gathered for the services, more than 200 having to remain in the street.

The first degree was exemplified at 1:30 o'clock in the morning by San Bernardino Council, the second degree at 2 o'clock by Redlands Council, assisted by Judge Paul McCord, and the third degree at 3 o'clock by the State degree team, in charge of Neil Power, State Deputy.

Thirty of the fifty Knights who took the degrees go in as charter members. Officers were installed as follows:

Grand Knight, E. M. Doyle; Past Grand Knight, Thomas Conney; Chancellor, H. M. Merrick; Warden, Thomas Yall; Advisors, Thomas Brennan; Inside Guard, Henry M. Besseman; Outside Guard, Martin Austin; Recording Secretary, Francis Delis; Financial Secretary, H. M. Blaney; Treasurer, John Brady; Chaplain, Rev. Peter McNellis.

During the day the ladies were entertained at the Glenwood Mission Inn by Frank A. Miller, who had arranged musical programs in the cloister for the benefit of the visitors.

GOOD ROADS WORK.

Superior Karl Carlton, who returned today from a trip to the desert, reports the road in excellent condition between Banning and Whitewater, with the exception of a stretch this side of the point of hills near the Whitewater River. This will be attended to at once by Supervisor Crane.

A bridge will be constructed at Snow Creek, in order to avoid crossing a deep sandy wash, and the work added to that recently accomplished in cutting across the point of hills, and so avoiding the Whitewater River. Mr. Carlton thinks will go far to making the entire road most acceptable as an ocean-to-ocean highway.

STATE CONVENTION.

The sixth annual State convention of the P. O. Society will be held in this city May 15, 16 and 17. Delegates will be present from all over the State, including the following: Grand chapter officers: President, Mrs. Addie A. Sexton; chapter N; vice-president, Mrs. Margaret Rominger; chapter G; second vice-president, Mrs. M. M. Smith; chapter N; recording secretary, Mrs. Patricia Beatty; chapter I; corresponding secretary, Mrs. Marian MacCracken; chapter K; treasurer, Mrs. Emma McKain; chapter W; organizer, Mrs. Ella J. Brown; chapter E.

The Wednesday afternoon session with a luncheon at the First Methodist Episcopal Church. From this point adjournment will be taken to All Saints Universalist Church, the State president, Mrs. Addie Sexton of Alhambra, will be heard in an address on Friday afternoon.

CLEAN-UP DAY.

The party board at its regular monthly meeting this morning designated Saturday, May 25, as "Clean-up Day," and the Council will be asked to make the date official. The street department will hold wagons in readiness to remove rubbish and weeds cleared from parking spaces and vacant lots.

CONFERENCE MUST DO IT.

Methodist Committee Is Not Content to Let the Human Consensus Decide the Issue of Amusement. Decide the Issue of Amusement.

MINNEAPOLIS (Minn.) May 13.—Unless the general conference of the Methodist Episcopal Church overrules the action of the committee on the status of the church, that part of paragraph No. 260 of the church discipline, which especially prohibits dancing, card playing and kindred amusements, will remain a church law.

By a vote of 100 to 51 the entire committee voted today to reject the report of the majority of the subcommittee which favored leaving the amusement question to the "conscience" of the individual member.

BUREAU OF INFORMATION.
 Times Office, No. 111 South Spring street.

NEWS IN BRIEF.

Plans for the Highways.

The County Board of Supervisors yesterday authorized the Board of Supervisors to purchase 500 date palms four feet high at \$1 each for planting along the San Fernando road.

Rabio Protection District.

The plans for the Rabio storm-water protection district were approved by the Supervisors yesterday and directions given to advertise for bids. The commissions appointed were James McAdams, J. J. McNally and W. G. Root, all of Pasadena.

School Bonds Sold.

The \$60,000 bond of Venice school bonds were sold yesterday by the Board of Supervisors to J. H. Adams & Co., at par, and a premium of \$264. The \$20,000 of Sawtelle school bonds went to the American Savings Bank at par and a premium of \$771.

Human Development.

Prof. Clement A. Whiting's public lecture on "The Science of Human Development," which was postponed on account of the Shriners' parade, will be delivered before the members and friends of the Human Culture Society this evening, in Music Hall, No. 332 North Hill street.

County Dental Bureau.

When a dentist presented a bill of \$1 to the Board of Supervisors yesterday for pulling the tooth of an indigent, the board wished to have the fact made public that it has at the County Hospital a most complete and scientific dental bureau, where all such work will be done free for persons dependent upon the county.

On Character Study.

Dr. John T. Miller will deliver an address in the W.C.A. auditorium this evening on "Scientific Character Study." The lecture will be profusely illustrated with stereoscopic slides made from photographs of many well-known men of the past and present. The public is invited to be present.

Evangelical Prayer Union.

The Evangelical Prayer Union will hold an all-day meeting in Central Presbyterian Church on Friday. The meetings will begin at 9:30 a.m. and with a noon intermission will continue until 4 p.m. There will be different leaders each hour throughout the day.

Going After Allen.

Constable Thomas will go to Philadelphia today for Harry Allen, whose arrest was reported in the Times yesterday. The young man has been followed by Pinkerton detectives since he left here, and at the request of local officers the Chief of Police at Philadelphia took him. The regulations papers have been prepared under the direction of Deputy District Attorney Percy Hammond.

Opening Banquet.

A banquet in honor of the opening of the Beverly Hills Hotel was held last night. Covers were laid for 100, and the guests embraced a number of the financiers of Los Angeles who are interested in the property. The large dining-room was beautifully decorated with apparatus, plumage, roses and carnations. A concert was given in the lobby following the banquet.

Complimentary Smoker.

A smoker complimentary to E. R. Maier will be given by Lodge No. 99, B.P.O.E., Wednesday evening, at Elk's Hall, Third and Olive streets. This affair, it is predicted by the smoker managers, will be one of the best ever featured by the Elk. Regular Norwegian and Dutch sets and medium drinks, merry songs, dances and stories are noted on the unique invitations, or rather notifications, sent out.

Supper Under the Trees.

A supper under the trees by electric light and candle light was one of the features of the picnic provided by the Mississippi State Society for visiting Shriners from Mississippi at Echo Park last Friday evening. Coffee was prepared at the big ovens and basket lunches were spread on the picnic tables. In addition to the eating, the company sang "Dixie," the society held a business session, in which its membership was reported to be on the increase, and then everyone enjoyed a row on the lake.

Handsome Room, Poor Acoustics.

The Board of Supervisors held its first meeting in the new quarters in the Hall of Records yesterday. It is an elegant and spacious room, with a twenty-foot coffered ceiling, supported by handsome columns, and the whole is finished in a pleasing soft tint. The fact is, that while it is magnificent to look at, with its mahogany furniture and other harmonious fittings, the acoustics are bad, and the clerks being in the same apartment the chairman finds it difficult to make himself heard. Already plans are on foot for enclosing a portion of the room in glass partitions, and making other arrangements for the lobby, so that the public can hear.

Homeseekers Rates.

The Chamber of Commerce has received notice from the passenger traffic manager of the Southern Pacific Company that homeseekers excursion tickets will be sold in the East on the first and third Tuesdays of each month to points on the Southern Pacific in California, including Klamath Falls, Or. Rate to main line points \$15 from Missouri River, \$65 from Chicago, \$85 from St. Louis, branch line points little higher. Tickets will be returned, limit twenty-five days, stopovers going or returning. These rates will become effective as soon as they can be prepared.

LOCAL PEOPLE TAP LIGHT OIL.

Paraffin Base Product is
Struck in Wyoming.

Shallow Well Breaks Loose
With Big Pressure.

Englishmen Deposit Money
for Palmer Option.

The Landers Oil Syndicate, composed of Los Angeles and Pasadena men, has just brought in its first well of forty-five gravity paraffin oil on its property in Wyoming, according to a dispatch from Landers, Wyo. The well when it broke loose is said to have flowed sixty-five feet over an eight-inch casing from a depth of 450 feet. It was soon brought under control and capped. Later the oil will probably be piped to the refinery at Cheyenne.

This well proves an area of oil land in the section which the Landers syndicate are operating. They are now down 150 feet in their second well, which is located farther back on the hill from the first, and they expect to tap the productive sands at about 300 feet.

The present well struck oil at 200 feet, when it is claimed it produced 300 barrels a day of a low gravity oil. This stream was cut off and the well drilled to 400 feet, where it will be finished.

The officers of the syndicate are George Kyle of the Boston Optical Company, president; F. H. Hamilton of the Los Angeles Land and Investment Company, vice-president; M. M. McArthur, treasurer, and F. C. Vincent, secretary.

Among the local stockholders of the company are C. F. Wilcox, P. A. Shaw, A. H. Chubb and Lewis J. Smith.

In the Olinda Field.

The Union Oil Company has brought in another well, known as No. 11, on the Olinda lease. It was set on the pump and is reported to be doing fairly well, although considerable water is coming in with the oil. Drilling on this well was begun about a year ago, but work was stopped for several months of that time.

The Petroleum Company has started the erection of its derricks for No. 1 well on its lease at Pitman beach. This well will be drilled with rotary, starting within the next three weeks. The well is located directly west of No. 1. In the latter and cement has set and the management is changing from rotary to standard tools. The present depth is between 240 and 250 feet.

Palmer Union Deal.

Pending the return of Frank L. Palmer, president of the Palmer Union, from London, where he went to close a deal for the company's holdings in Santa Maria, specific details are not to be had as to the sale, which reports from the East say has been made. But from the best source available the information is that a sum of money has been pledged by an English syndicate for the purchase of which \$100,000 was sold and has been deposited in bank, which will be forfeited to the Palmer Union in the future of the company to maintain the agreement. In return the stock of the company is optioned to the English company.

Postponed Sixty Days.

The stockholders meeting of the Consolidated Oil Company, which was to be held recently, has been postponed until July 3. Of the 1,000,000 shares of stock outstanding, but 100,000 shares were represented at the meeting called. As there was not a majority of the stock a quorum no business could be conducted.

J. R. Higgins, president, and F. B. Higgins, a director, have resigned and it is reported that there is no one who wishes to attempt the divestiture of the small assets of the company.

Longest Spring in Field.

The same spring in the well of the Pyramid Oil Company at 2710 feet was successful, according to advices from the field, and drilling has been resumed with a rotary. A large amount of gas is coming up through the well.

The company has installed blow-off preventers in order to brace in the well under control. A string of casing 3640 feet deep, has been successfully landed in well No. 1. This is one of the longest strings of casing ever landed in the Midway field.

Field Notes.

Twenty-five California oil companies paid dividends in April according to the following:

Midway, which was reported to have drilled out. On section 20, No. 1 is again on the pump and producing about 100 barrels a day.

Section No. 2 of 1 cent a share, which was reported to have drilled out. On section 20, No. 1 is again on the pump and producing about 100 barrels a day.

Section No. 2 of 1 cent a share, which was reported to have drilled out. On section 20, No. 1 is again on the pump and producing about 100 barrels a day.

THE COMPANY'S ALL RIGHT.

San Francisco Examiner Looks Into Action of Pacific Mutual and American Life Insurance Companies.

George J. Cochran of the Pacific Mutual Life Insurance Company, president of the National Association of Life Insurance Companies, is reported to have been making a thorough examination of the company's books to see if the interests of the policyholders are properly protected.

The final examinations are to end Wednesday. Wednesday night the senior class will hold a class supper at Lake Lagunita and in the assembly hall the senior class, "Penny's Relations," will be presented. Miss Helen Bullis of Los Angeles is to appear in the leading role.

Thursday will be underclassmen's day. A big parade of grotesquely-clad students, and floats full of pretty "co-eds," will be the feature of the morning programme. In the afternoon the annual faculty-senior baseball game will be played, and at night a carnival on the main street of the campus. "Nickie" dancing in the fraternity houses and numerous side shows will be perpetrated.

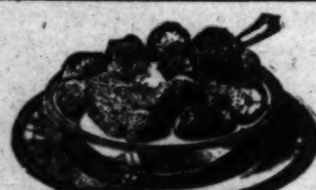

Class day exercises are to be held Friday morning in the chapel, after which Eugene E. Tincher of Long Beach will dedicate the class plate, a bronze substitute for a concrete square in the inner arcade in front of the memorial church. The class will be to read by Wesley Huggell of Los Angeles. In the afternoon President and Mrs. Jordan will hold a reception to the graduating class. In the evening a promenade concert will be held in the inner quadrangle.

Saturday will be turned over to the alumni, when several classes will hold reunions. The annual alumni-faculty baseball game will be played and in the afternoon everybody will attend the track meet that is to be held for the purpose of choosing athletes for places on the American team in the Olympiad at Stockholm. At night a vaudeville show will be staged.

Rev. Charles F. Aked is to deliver the baccalaureate sermon Sunday morning in the assembly hall. Prof. David P. Barrows of the University of California is to deliver the commencement address Monday morning, after which President Jordan will confer degrees upon the seniors and graduate students. The festivities will end with the senior ball at San Jose, Monday night.

Spring in Yosemite Valley.

Most of the trails and the road to the Big Trees are open, the air is clear and bright, and the whole valley invites you to come. Leave Los Angeles 9:30 a.m. Standard time. The Weber, Kille & Armstrong, 218 Grant Bldg., Fourth and Broadway, Main 622, 7420.

A Dainty, Delicious Delight

for the Summer days when the palate is tired of heavy meats and soggy pastries

Shredded Wheat Biscuit and Strawberries

Being made in Biscuit form it is so easy to prepare a delicious, wholesome meal with Shredded Wheat and berries or other fruits. The porous shreds of the Biscuit take up the fruit acids, neutralizing them and presenting them to the palate in all the richness of their natural flavor. Heat the Biscuit in the oven to restore crispness; then cover with strawberries or other fruits and serve with milk or cream, adding sugar to suit the taste. More nutritious and more wholesome than ordinary "short-cake" and so much easier to prepare—requires no baking and no cooking.

Shredded Wheat is made of the whole wheat steamed-cooked, shredded and baked in the form of crisp golden brown Biscuits, ready to serve with milk or cream or fresh fruits.

Lookout Mountain Park

"West Hollywood"

Thousands of people have traveled thousands of miles and spent thousands of dollars to view scenery which does not compare with that of Lookout Mountain Park, only an hour's ride away by Street Car, at trifling expense.

You Lovers of the Grand and the Beautiful in Nature
You disciples and adherents of the great Out-of-Doors!
You who are weary of canyons of tall buildings, and of the sickened atmosphere of a crowded civilization.
You who have gone afar and overlooked the opportunities at home.

Consider Lookout Mountain Park
Fifteen hundred feet above sea-level; within the nine-mile radius from Los Angeles, presenting an unsurpassed view of valley and canyon and verdure and granite cliff; of hillside and mountain; of the ocean and the magic isle; a bird's-eye aspect of Los Angeles; twenty cities and towns in an emerald setting.

Let Us Show You This Wonderful Spot of Southern California
The rest we will leave to you. Should you desire to purchase, we have lots as low as \$200; villa view lots \$300 and up. Monthly payments if desired.
Get transportation at our office. Automobile trips daily. Or take Pacific Electric Laurel Canyon car at Hill-street station.

BUSY WEEK ON STANFORD QUAD.

COMMENCEMENT FESTIVITIES
TO BEGIN WEDNESDAY.

Nearly Three Hundred Students
Will Receive Degrees This Year.
Six Days of Strenuous Celebration
Will Bring University Year to Close.

(Special Correspondence of The Times.)
STANFORD UNIVERSITY, May 12.—The class of 1912, of which Harry Seward of Los Angeles, crew captain, is president, is to depart from the campus leaving a cloud of glory behind it. The commencement festivities this year are to be particularly snappy. Seward has appointed ten committees to handle the various functions and every effort is being made to assure a record-breaking number of alumni back to the Quad to renew old acquaintances under the oak trees.

The final examinations are to end Wednesday. Wednesday night the senior class will hold a class supper at Lake Lagunita and in the assembly hall the senior class, "Penny's Relations," will be presented. Miss Helen Bullis of Los Angeles is to appear in the leading role.

Thursday will be underclassmen's day. A big parade of grotesquely-clad students, and floats full of pretty "co-eds," will be the feature of the morning programme. In the afternoon the annual faculty-senior baseball game will be played, and at night a carnival on the main street of the campus. "Nickie" dancing in the fraternity houses and numerous side shows will be perpetrated.

Class day exercises are to be held Friday morning in the chapel, after which Eugene E. Tincher of Long Beach will dedicate the class plate, a bronze substitute for a concrete square in the inner arcade in front of the memorial church. FIRST FOREST FIRE.

Conditions This Season Make for
Every Possible Precaution.

The 1912 forest fire season opened in California May 4 with a fire in Devil Canyon, Angeles National Forest. The fire was extinguished by the forest officers after it had burned over 500 acres. The blaze was caused by a power company burning brush on its right of way. Supervisor Charlton reports that in ordinary years such rights of way can be safely cleared by burning as late as June. But this year the country has dried out early and a bad season, so far as forest fires are concerned, is expected.

The United States District Forester at San Francisco, states that the forest rangers are organized for a vigorous campaign against fire and urge upon the public compliance with the well-known "Six Rules."

The "Six Rules" are as follows:
1. Be sure your match is out before you throw it away.
2. Knock out your pipe ashes or throw your cigar or cigarette stump where there is nothing inflammable. Don't build a camp fire any larger than is absolutely necessary.
3. Never leave it even for a short time, without putting it out with water or dirt.
4. Don't build a camp fire against a tree, or a log. Build a small one where you can scrape away the needles, leaves or grass from all sides of it.
5. Don't build bonfires. The wind may come up at any time and start a fire that you cannot control.
6. If you discover a fire, put it out, if possible; if you can't, get word of it to the nearest forest ranger or State fire warden immediately.

DOSES THE BET HE WINS.

Taken in by Crooks Man Draws
Money from the Bank Just to Show
Them He Can Do It.

J. P. Domecq, No. 148 South Savannah street, reported to the police yesterday that he was robbed of \$215 by two men, who held him up in room No. 20 at No. 316 West Second street.

Domecq said two strangers, one about 25 years old and the other about 40, met him on the street, and induced him to wager he couldn't draw all his money out of the International Bank.

"I'll take that bet," replied Domecq; "that's a cinch bet."

After he had drawn it, the men enticed him to a room, which they rented for the purpose to which it was put, and while the older man held him, the younger one took his money. Then the men ran away. Domecq says he never saw them before.

SMUGGLER JAILED.

Charlie Lee Yung, a Chinese, was
sentenced to ten months in the San
Diego County Jail by Judge Walthorn
yesterday, on his plea of guilty to the
charge of smuggling opium into the
United States.

YOUNG MAN'S DEED.

Between San Diego and Mexican ports
Fifty-nine cans of opium were found
on the boat, and Yung confessed that
he was responsible.

Special Notice

Beginning tomorrow (Wednesday) and continuing for one week, Mrs. K. C. Bennion, a special instructor, will be in our pattern department to give personal instructions regarding the use of PICTORIAL REVIEW PATTERNS. Home dressmaking made easy by using these celebrated patterns. Admit 11.

Imported and Domestic Ginghams

The spring season always brings out many beautiful and attractive wash fabrics—but none more popular for making practical dresses than ginghams.

Every mother knows that good ginghams are almost indispensable for making children's utility dresses. Our assortment this season in both imported and domestic makes is very comprehensive. Especial mention is made of our showing in the celebration.

AMOSKEAG—
DRESS GINGHAM.

27-INCH AT 12/2c 32-INCH AT 15c

These splendid ginghams are shown in a large assortment of pretty checks and plaids; also plain colors. In the season's choicest styles and color combinations.

FRENCH AND SCOTCH GINGHAMS

32 Inches Wide at Yard 25c

This collection of fine imported ginghams embraces a very extensive variety of patterns and colorings. All the latest effects in checks, stripes and plaids, also plain colors. These ginghams are unsurpassed in quality and style at 25c yard.

Second Week May Sale Undermuslins

This important sale continues to offer excellent values in high-class, dainty lingerie. Especial mention is made of the following lines of

FRENCH HAND-MADE AND HAND-EMBROIDERED UNDERGARMENTS.

UNLAUNDERED CHEMISES OR CORSET COVERS. French hand-made and hand-embroidered, at each \$1.00

UNLAUNDERED CHEMISES. French hand-made, and elaborately hand-embroidered. Exceptional value at each \$1.50

CHEMISES, CORSET COVERS AND DRAWERS. Full laundered. French hand-made and hand-embroidered. Values to \$5.00, at each \$3.50

NIGHT GOWNS AND COMBINATIONS. French hand-embroidered and hand-made, at each \$5.00

In our muslin underwear section we are showing a complete line of ITALIAN SILK COMBINATIONS, CORSET COVERS, KNICKERBOCKERS AND VEST CHEMISES.

HAIR LOSS IS NOT NECESSARY; SAVE IT WITH-NEWBRO'S HERPICIDE

Approaching baldness, while frequently contemplated with misgivings, is nevertheless accepted as inevitable. It is not necessary to become bald. Baldness can be prevented.

Loss of hair is due to the activity of the germ which causes dandruff. Newbro's Herpicide is the first remedy ever compounded which absolutely destroys this germ. Used regularly and intelligently, Herpicide will remove every trace of dandruff and prevents the hair from coming out. The terrible itching of the scalp which is so annoying, stops with the first application.

This valuable scalp prophylactic adds luster and brilliancy to the hair and renders the scalp perfectly healthy. This permits the hair, hitherto stunted by the presence of dandruff, to grow freely and luxuriantly. It takes on a natural gloss and beauty where before it was dry, brittle, uneven and coming out with every combing.

Newbro's Herpicide is the first and original dandruff germ destroyer and costs no more than the off brand and so-called "just as good" remedy.

Newbro's Herpicide in 50-cent and \$1.00 sizes is sold by all dealers who guarantee it to do all that is claimed. If you are not satisfied, your money will be refunded.

Applications at the best barber shops. Send ten cents in postage, or silver to the Herpicide Company, Dept. S, Detroit, Mich., for trial bottle and an interesting booklet on the care of the hair.

6% GOLD BONDS SECURED

by Deed of Trust to big Office Building which will earn \$106,276.00 leaving Surplus of \$29,813.00 each year after everything is paid. See Whitcomb Co., Realty Bldg., 6th and Hill. Surplus goes to Bond Holders.

WHY VOTE FOR TAFT TODAY.

Vote for Taft today because his three and a quarter years' occupancy of the Presidential chair has been with dignity, prudence, fair-mindedness, courage, conviction and patriotic impulse.

Vote for Taft today because, by reason of his exercise in office of the admirable qualities named, he deserves, like Lincoln, Grant and McKinley, a second term.

Vote for Taft today because, prior to his election to the Presidency, he also performed his duties of judge, Governor-General of the Philippines, Secretary of War, etc., ably and conscientiously, moved only by the desire to do his full duty by his country.

Vote for Taft today because he is for peace rather than for war, as witness his successful negotiation of arbitration treaties with England and France.

Vote for Taft today because, invoking the Sherman law (ignored for seven and a half years by Roosevelt) he is compelling the trusts to disband, and that without inflicting any injury upon the multitude of stockholders thereof.

Vote for Taft today because he had the courage (differing from his predecessor) to give notice to Russia of our intention to abrogate in due course the treaty with that country under which it refused to recognize passports issued by us to Jewish-American citizens.

Vote for Taft today because, instead of ignorantly hacking and chopping our protective tariff, he is in favor of scientific tariff revision, based on the findings and recommendations of the Tariff Board, created by Congress.

Vote for Taft today because, under his care and energization, the American Panama Canal is being rapidly pushed forward to successful completion.

Vote for Taft today because his word is his bond—because, if he had said "Under no circumstances will I accept another nomination," he would have stood by his word, just as much as if he had signed a bond, with many seals.

Vote for Taft today because the treaty he negotiated with Japan has brought about a genuine friendship between her and the United States.

Vote for Taft today because, by executive order, he has materially aided extension of the civil service—the regulation under which deserving public servants are made sure of their jobs, despite political influence and political upheavals.

Vote for Taft today because, by words of friendly warning to Cuba, he has avoided another intervention by us in the affairs of that country, thus saving us a large expenditure of blood and money.

Vote for Taft today because of the patience, tact and statesmanship he is exercising in the present embroiled Mexican situation.

Vote for Taft today because, by proper action under the law, he prevented the railroad from arbitrarily putting increased freight rates into effect.

Vote for Taft today because, almost entirely by his influence, California secured the Panama Exposition for 1915.

Vote for Taft today because he has stood and will stand between California and legislative destruction of her vast fruit and other interests.

TO THE WOMEN.

The women voters of California owe it to themselves to support President Taft. More than any President that ever occupied the chair he has recognized their rights and stimulated legislation in the interest of the home and the family. He procured the enactment of a law to promote the health and welfare of the children of the land. In many a humble home to which the husband and father is brought crippled because of an untoward accident, the operations of the employers liability bill, of which he was the author, will bring exemption from want. Women are not rainbow chasers, they are not filled with blind, unreasoning hatred of the owners of property. They are not advocates of strikes and boycotting and dynamiting. They are naturally kindly, and loving, and peaceful, and law-abiding, and unselfish. Their votes will control the destinies of California today. God send that their pure hearts and clear heads may help to save California from the rule of "progressives" whose aim is to "progress" our fair State into a seething pit of disorder.

The reiterated statement made by the Johnson-Henry-Roswell-Lissner-Gompers-Harriman newspaper organs that the women of California owe the suffrage to the generous efforts of Republican insurgents and to them alone is about as audacious and strenuous a misrepresentation as ever emanated from their falsehood factory.

Of course nobody knows, and in the nature of things it is impossible that anybody should know, the politics of either those who voted for or those who voted against woman suffrage. Yet a fairly intelligent conjecture may be made from circumstances. In the canvass which preceded the election the speakers in behalf of woman suffrage were taken about equally from the insurgent Republicans and the regular Republicans, with some Socialists. It may be premised therefore that the suffrage amendment was carried by the votes of both insurgent and regular Republicans, and that few Democrats voted for it.

In what numerical proportion were the insurgent and regular Republicans divided? The last popular primary election at which there was any marshaling of forces was in 1910. The insurgents concentrated on Johnson. The regulars foolishly divided their votes between Stanton, Curry and Anderson. As a result Johnson was nominated by a plurality vote only. He was elected because the regulars loyally supported him, notwithstanding his pre-election abuse of them, for, as between Johnson and Bell, they voted for Johnson. Whether Johnson and his syndicate would have supported Stanton if he had received a plurality vote, or whether they would have bolted the ticket, is a matter about which opinions may differ. The Times is of opinion that they would have bolted and this opinion is

The Peril.

based upon their subsequent actions and utterances.

The motto of the followers of Theodore Roosevelt is "rule or ruin." That of the followers of President Taft is to follow the advice that old John Harper, the Kentucky horse-racer, gave to a young man who was "beating" because his horse had been left at the distance pole. "Young fellow," said he, "you want to do your level best and use every fair means to gain the race and you have a right to grow a little if you win. But if you lose—why own up, pay up and shut up."

A contemporary which for once seems to have been overcome by a temporary inclination to tell the truth says: "Many false and unrelated issues have been brought forward and bitter personalities have been indulged in during this season of political controversy. Appeals have been made to prejudice and hatred, to fear and selfishness; passions have been stirred and animosities awakened; wicked accusations and deliberate misrepresentations have been employed to influence public opinion."

After making this confession the Rooseveltian organ harks back to its warehouse of adjectives and epithets and accuses all Republicans who do not believe that the sun rises in the brain and sets in the feet of Governor Johnson of being "willing to allow Special Privilege and Private Interest to exercise a sovereignty over affairs, and to disregard the rights of the public and the powers of government."

Did not "Special Privilege" exercise a sovereignty over affairs when Roosevelt, as President, granted a privilege to the United States Steel Corporation to violate the Sherman law by absorbing the properties of a rival corporation—the Tennessee Coal and Iron Company? Did not Syndicated Greed protect Special Privilege when some high official withdrew from the public archives the evidence of the unlawful and shameful act and looked them up two days before the inauguration of his successor?

Did not Roosevelt promote his Private Interest when he obtained \$200,000 from "My Dear Harriman" to help along his election to the Presidency, and when he persuaded or permitted Perkins and Munsey and other directors of the steel corporation to appropriate vast sums of the stockholders' money to expend in the New York and Pennsylvania primaries to secure delegates for Roosevelt?

Was it plutocracy or democracy that called for and obtained the order made by Roosevelt withdrawing Alaskan coal lands from location for the benefit of the Peabody Coal Company and the coal barons of Colorado and Wyoming?

Was it anything but subservience to "Special Privilege" and "Private Interest," and "Big Business" and "Plutocracy," and "Syndicated Greed," and "Lootsome Capitalism," and all the other word creations with which demagogues seek to arouse class hatred of the poor against the rich, the idle against the industrious, and the unthrifty against the economical that induced Theodore Roosevelt, when President, to utter bombastic promises of prosecution of the trusts, promises which he never kept or attempted to keep?

Roosevelt promised—Taft performed—and in this brief sentence the history of the two Presidents is compacted. Why should California support Roosevelt? He represents nothing that she needs, not even the protective-tariff principles which Taft actively supports, concerning which Roosevelt is as silent as the grave and which Beveridge, who voted to place lemon on the free list, disposed of by calling the

peroration of Cook's lecture is delivered in stinging Americanized Anglo-Saxon. It is a rambling dissertation on the lowly origin, infamous character, dissolute conduct and burning future of Lieut. Peary, who will—according to Dr. Cook—when he leaves this vale of tears, find permanent quarters in a locality where leeches are never seen.

Some years ago the German Reichstag attempted to pass a law to keep American hogs out of Germany. Who can blame them if they should now enact a law prohibiting the importing of American autos and Arctic explorers?

WOMAN'S CARDINAL SIN.

BY JANIE B. JONES.
If human destiny has its accredited value in "the scheme of things entire" and woman's appointed work of caring for and training the young of the race is the most important work in the world. As a rule the mother or, lacking a mother, some other woman, has almost absolute control of the child during his early years. It is the period of his life when he is most benefited by proper care and good influence, when he suffers most from their lack, when his good impulses are most easily stirred and strengthened and his tendencies to evil are most easily weakened or eradicated. Whether in a home or an orphanage, he is under woman's care during the years when he is most deeply, often indelibly, branded by the good or bad influences affecting him. To enable her to meet the demands entailed upon her with most benefit to the child and satisfaction to herself she is endowed with "motherlove." It is the principal part of nature's plan for insuring the care and tenderness and safeguarding necessary to helpless and irresponsible childhood.

The tendency of sentimentalists to ascribe to this instinct intelligences and powers that do not and cannot belong to it is both misleading and mischievous. Too much stress is laid on motherlove, too little on other essentials to efficient motherhood. Some of the most devoted mothers are the most vitally inefficient. Nature's teaching does not go beyond the scope of primitive impulses. Indolence, ignorance, selfishness can thwart its intent. The man who loves his wife regards his right to protect and provide for her as a privilege instead of the intolerable burden it otherwise becomes. But, while love gives him the will to do so, it does not alone enable him to either protect or provide for her. The wife who loves her husband wants their home to be the dearest place in the world to him, but she cannot make it so without intelligence to direct and strength to do what love prompts. The normal woman's love for her child gives her a strong, often an overmastering, impulse to cherish it and prompt its welfare. It no more teaches her how to do this than a man's love for his wife teaches him how to construct a home for her.

It is not lack of "motherlove" that fills the cemeteries with tiny premature graves, the hospitals with maimed and injured children, the asylums, reformatories and penal institutions with human wreckage. A mother may love her child so dearly that she will willingly deny herself to supply its needs, and yet, if she doesn't know how to properly clothe and feed it, to care for its health, to train it, and to teach it to apply its knowledge, the child inevitably suffers through her ignorance or laziness. The pity of it is that the child always pays for the mother's inefficiency. A 15-year-old girl recently died in an eastern city who had been a helpless, hopeless cripple since infancy. One day her loving mother left her with an untrustworthy nurse girl and went shopping with a friend, and the nurse let the baby fall. The mother was very, very sorry and of course did everything she could for the cripple during the long years of suffering that followed, but it was the child who paid the price of her neglect.

Every community has its share of equally distressing accidents. Here in Los Angeles a woman going shopping with a neighbor over the back fence one morning smelled burning flesh and rushed into the house to find her baby, which she had carelessly left in a chair in front of the fire, burning to death in the open grate into which it had fallen. Of course she was nearly frantic with grief and all that, but it was the child that paid the supreme penalty of her carelessness. And the pity of it is that, in spite of the almost daily accounts of such things, the murder of the innocents goes steadily on and in most cases results from just such trivial causes.

Mother wants to go to the play, so she gets her little folks to sleep, locks the door, and the nurse goes to the house, and goes cheerfully on her way undeterred by the fact that hundreds of children have been burned to death under just such circumstances.

Mother goes shopping, or calling, or clubbing, leaving her irresponsible children to take care of themselves, with evil companionship, or a box of matches, or a loaded pistol, or a bottle of poison, or the car tracks in their reach. And always there are sympathetic souls at hand to explain away the lesson of the disaster that so often follows. It is either a "mysterious dispensation of Providence," or else "God took the dear child away" or "permitted it to go wrong for some mysterious reason."

The palpable fact that God's instrument, specially prepared and endowed and put in charge of the job was off duty, is kindly overlooked. To the high gods ever find cause for mirth in human frailty they must laugh at the shortsightedness of the mother who leaves her dependent little ones unprotected, her home untended while she complacently takes herself to a mother's meeting to help discuss the best way to take care of and raise children.

STREAKS OF WIT.

The Stenographer's Friend.

[Judge:] "There's a use for everything in the world."

"What's the use of a jealous wife?"

"A great deal! If there were no jealous wives, how do you suppose a homely stenographer could get a job?"

Makes a Difference.

[Boston Transcript:] Gibbs: Speaking of lucky numbers, they are the ones with the dollar sign before them, aren't they?

Dibbs: Well, that depends on whether they represent what is coming to you or what you owe.

A Vital Influence.

[Washington Star:] "You think the drama exerts a great moral influence?"

"Certainly," replied Mr. Stomington Barnes. "Even to this day Uncle Tom's Cabin impresses the great lesson that people should not be permitted to keep large, fierce dogs."

A Son's Influence.

[Washington Star:] "You have taken your son into business with you?"

"Yes," replied Mr. Growcher.

"But you seem to work harder than ever."

"I have to. I have an ambition to know as much about the business as he thinks he does."

A Good Boy.

[Baltimore American:] "It is the duty of everyone to make at least one person happy during the week," said a Sunday-school teacher. "Now, have you done so, Johnny?"

"Yes," said Johnny, promptly.

"That's right. What did you do?"

"I went to see my aunt, and she's always happy when I go home."

Pen Points: By the Staff.

Let California answer: "Adam."

One good term deserves another. Vote for Taft delegates.

Mapimi is now hemmed in. More Mexican drawn work.

Republicans of California, rally for William Howard Taft!

The marriage license lists indicate that leap year is a howling success.

Let it be the red, white and blue against the red flag of political insurgency today.

Dignity, veracity, friendship and humor, all look alike to Roosevelt. He smashes them all.

The citrus fruit growers will be for Taft to a man. He has been their friend in time of need.

In any event the Col. Roosevelt campaign department is in excellent trim and equal to any emergency.

"King Solomon's Mines" is to be dramatized—if they can get Nat Goodwin to appear as Solomon.

The "certain great principles" that Roosevelt is fighting for are a third term for Theodore Roosevelt.

If it is true that China has emancipated women the Oriental trade in shoes ought to be worth looking after.

Over in China they are asking for the American steam roller. The one the United States used four years ago is not working.

The French prophet who predicts the death of Bernhardt does not seem to realize that she is one of the immortals.

Judging by the way Hon. Oscar Underwood is fighting for free sugar he must be living in a Washington City boarding house.

We are more convinced every day that Champ Clark will secure the nomination, provided someone else does not beat him.

Eugene Debs vouchsafes the information that he will not run for President this year. Debs has run so often that his wind is as good as it might be.

The Olympia, flagship on the golden day in Manila Bay, has been shifted to the humble status of a receiving ship. To what base uses do we come at last!

The eyes of the country are upon California and Ohio. The Golden State speaks first. Let there be no uncertain sound in the message it sends to the country.

The result of the primary campaign for President will largely determine whether this country is to be Cosack or the great example of a republic on the face of the earth.

Meanwhile there appears to be about as much demand for the Vice-Presidential nomination as for a left-handed mender of a ball or old-fashioned maker's wax.

The rumor that the Abernathy kid is going East to assist Col. Roosevelt in his campaign is denied. Roosevelt will be his own Abernathy kid.

It is predicted that the coming summer will be unusually hot. We are so weather prophet, but make bold to say that they will be a frost the first Tuesday after the first Monday of November.

A local clergyman says the saddest hour comes just after sunset. We move to sunset and insert that the saddest hour is when house happens when the alarm clock rings in the morning.

There are some queer folks in this old world. We have an instance in mind when a subscriber wrote the editor complaining that his Congressional Record did not reach him on time. Now what do you suppose he wanted with the Record?

If Taft had retired from the campaign three months ago in favor of Theodore Roosevelt, would any sane man doubt that he would have been elected? The author of the present article of the Taft administration and denouncing Taft's critics as enemies of party progress?

Col. Roosevelt says he cannot work with Taft because he finds Taft "soft" on the task. But he could work with Taft as hard as Hanna, Foraker, Adkins, Cox, Lorrain, and the steel and harvester trusts, Cannon, Aldrich and others. Oh, piff!

How does it happen that Col. Roosevelt allows George W. Perkins, a former partner of J. P. Morgan, to pose as his supporter? Perkins is a member of the large part of his wealth through the manipulation of the steel trust. Why is Perkins a part of the "big show"?

There is a movement on foot in the United States to regulate what women shall wear to regulate what women shall wear. Demand is for the abandonment of long waists, short sleeves and thin waists, all of which are declared to be detrimental to the health of the nation. Women are not so influenced in the matter of dress.

SEE THE MAIDEN WITH THE RING. See the maiden with the ring—Diamond ring! What a sweet assurance that she has a string! See it glitter, glitter, glitter! With a radiance rich and true. While her lady friends they stare With a soft and bird-like twitter. As they pipe the solitaire. And their eyes shine bright. With an optimistic light. In the cheering, scintillating that only spring. From the ring, ring, ring, ring. Ring, ring, ring—From the gleaming and the twinkling—ring!

Our Tailoring Department

Perfection of fit, reliable materials, quality of finish—all these points you naturally take for granted—but in addition to these a Coulter suit embodies two features upon which our patrons often remark.
—A certain dashing grace of style—a poise and distinction befitting a touch of genius in the design; and a thorough-going sterling stability of construction which explains a Coulter suit's really wonderful shape retention. And it is this last point that really determines a garment's merit.
A \$88.50 Special
To direct your attention to this branch of our business we will for a few days build you a suit for this unusually low price. And we will expend upon it the same high grade of labor and material which we ordinarily devote to suits of much higher price.
—Main Floor, Rear—

Tableware Far Underpriced
—Serviceable—Beautiful
A fitting accompaniment to today's table linen sale—this strong tableware feature. A new department in our store we intend it to be one of the strongest. Such values as these will surely focus attention upon it.

SOCIETY

Mrs. Jack Matthews.

Charming young matron from the East, who spent Shrine week at Hotel Alexandria. Mrs. Matthews returned to her home yesterday.

MRS. P. W. BREESE was the first hostess to entertain this week and her five hundred party last evening was one of the most enjoyable in many months. Her home at No. 1712 West Adams was decked with Richmond, which had been perfectly with the dark red color-scheme carried-out in the furnishings. Following cards, supper was served and the evening was spent in the most enjoyable manner. Mrs. Breeze, Mrs. E. J. Brent, Mr. and Mrs. W. D. Saurer, Mr. and Mrs. Frank Jay, Mr. and Mrs. T. H. Wright, Mr. and Mrs. Frederick Webb, Mrs. T. C. Johnson, Mr. and Mrs. A. Weisheimer, Mr. and Mrs. George Rector, J. C. Brown, Dr. and Mrs. Ralph Hagan and Miss Gertrude Breeze.

Informal Dancing Party.—About forty friends enjoyed the informal dancing party Friday evening which had for its host and hostess, Mr. and Mrs. O. Daugherty of No. 1237 East Forty-sixth street.

Married Tuesday.—Miss Dorothy Deverell Foster, daughter of Mrs. Maude D. Foster of No. 2668 South Union avenue, was married Tuesday evening to William Brewster Atchison of Nashville, Tenn., the ceremony having been read by Rev. C. C. Pierce. At the conclusion of a brief trip Mr. Atchison and his bride will make their home in Nashville.

Club Party.—Members of the Sunshine Club were delightfully entertained at the home of Mrs. C. Malloy of the Galesborough apartments, Thursday. Luncheon was served and later the card prizes were awarded to Mrs. Enid Rice and Mrs. Bert Raymond.

Birthday Dinner.—One of the happiest of yesterday's social events was the birthday dinner given at the California Club last evening in honor of C. A. Fellows of Westchester place. Twenty-five ladies and gentlemen sat around the table and enjoyed the best dinner the California Club's chef could produce, to the accompaniment of music by a native Hawaiian orchestra. Mr. and Mrs. Fellows gathered a most congenial company of friends and the evening was as jolly as one could wish. Toasts were drunk to the host and hostess, to the ladies and others. Mr. Fellows, who is a very successful railroad contractor, was surrounded by many of his railroad friends. The festivities ended with a dance led by Carl Leonard.

Miss Ludwig Hostess.—Miss Ella Ludwig of No. 101 Manhattan place entertained Saturday afternoon with a miscellaneous shower in honor of Miss Lucy Lindley whose wedding will be an important event of the near future. The young hostess was assisted in entertaining by her mother, Mrs. E. Ludwig, Mrs. T. Hoff, Miss Ethel Webb, Miss E. Harrog, Miss Juanita Bryant, Miss Mary Olmsted and Miss Marcia Rogers and Carmelita Ludwig. The home was radiant with poppies, ferns and wild mustard, which were arranged in huge baskets. The place and score cards, done by Miss Herzog, were ornamented with the poppies and tiny yellow May baskets filled with bonbons were given as favors. Progressive games were played and prizes were awarded to Miss Louise Hawkins, Miss Grace James, Miss Grace Meyers and Miss Carrie James. A pleasing feature was the excellent

street was hostess-at-a pretty dinner party Thursday evening. Following which bridge was enjoyed. The affair was planned as a courtesy to Arthur H. Abplanalp of Oxnard, who celebrated his birthday anniversary on that day. Pink sweet peas and ferns were used through the various rooms and in the center of the table rested a mound of Cade's Bruner roses and maidenhair ferns. Covers were laid for Mrs. Edward A. Abplanalp, Mrs. E. Gilbert Wilson, Mrs. H. C. Miller, Miss Helen Stephan, Miss Alice Wilson, Miss Edna Miller and Messrs. Thomas, Arthur Abplanalp and Brown.

Recent Wedding.—Miss Sarah Avilla became the bride of J. Maurice Odell, Wednesday, the wedding taking place at their new bungalow home on Hollywood avenue. California poppies were used to decorate, great masses being banked over the fireplace and about the rooms. The service was read by Dr. J. A. Giesinger. The bride wore a beautiful gown of Chinese lace with a shawl of white sweet peas. She was attended by Miss Lita Odell, a sister of the groom. Paul M. Poles of Chicago was best man. After the ceremony refreshments were served at small tables which were graced with golden poppies. The wedding was witnessed by immediate relatives and friends of the bride and groom. Mr. and Mrs. J. A. Odell, the groom's parents, coming from Chicago for the occasion. The couple left immediately for a short honeymoon and will be at home to friends at No. 907 Hollywood avenue after May 15.

BIRDS OF A FEATHER.—Red-Faced Western Tanager Comes With the Shriners and Remains as Noble Heritage.

Wearing the Shriners' colors, red and yellow, its bright red cap as conspicuous as the noble's own fox, the Western Tanager, formerly known as the Louisiana Tanager, appeared here for the first time during Fiesta week, according to Laura P. Coleman of No. 2115 West Twenty-fourth street. The birds have been reported also from Ventura county and it seems they came here to celebrate with the Shriners. "I have watched them come and go among the trees in our lawn, with as much interest as the wonderful and beautiful parades of the Shriners themselves evoked," said Miss Coleman, yesterday. "The visitor acquired its name, I believe, from so much of its western country was known as the Louisiana Territory, but it is seldom seen in the State of Louisiana, and its home is among the western mountains, but with other red and yellow-bellied Shriners, though unsparingly they brightened our city during the Fiesta week."

UNDELIVERED TELEGRAMS.—There are telegrams at the post office for Guadalupe Quiroga, Anthony Seufert, C. A. Johnson, Alexander Robb, M. C. Kienenschmidt, E. Vandusen, National View Company, R. Emmet, Lucas and D. Morgan. At the Western Union, Mrs. Hattie B. Scott, Thomas Talbot, Raymond James, Miss Gladys Still, Miss Annie Still, Miss Mabel James, Miss Carrie James, Miss Mae Gibson, Miss Hazel Kemp, Miss Mae Bartram, Miss Mary Caldwell, Miss Lora Farnan, Miss Isabelle Thompson, Miss D. Thompson, Miss Louise Hawkins, Miss Mabel Everett, Miss Helen Ward, Miss L. Spencer, Miss M. Rogers, Miss Carmelita Ludwig and Mrs. Mildred Macchene.

FOUR FINGERS CUT OFF.—While feeding a sausage machine at the Lily Market, No. 2803 San Pedro street last night, Emmett Meek, a 22-year-old boy, employed as a miner, caught his right hand in the blades which cut off four fingers. The injured lad was removed to the Revere hospital where Dr. J. A. Giesinger performed the operation of amputation, leaving the victim with a stub and thumb. Later the boy was sent to the home, No. 848 Forty-first street, to recover from the shock.

WILL VOTE FOR PRESIDENT.—Avalon Republicans Refuse to Be Moved by Socialist Pleas and Will Cast Vote for Taft.

AVALON, May 13.—Political enthusiasm developed rapidly here during the past few days. The Republicans, who have been here for months, were trying to win their way into the Republican camp for the coming election. It was not until several of the leaders had expressed themselves very forcibly that the object of the visit was suspected. Today groups of men congregated, and despite their best efforts, the Democrats could not sway the crowd. At the last Presidential election, almost the entire town voted for Taft. For many years Catalina precinct has voted the Republican ticket. In the midst of a long-winded, soap-bubble oration, an over-indulgent "rag-chewer" for the Socialist party was left by a group of Republicans and he finished his "eloquent address" by saying that he was a Republican. He then threw his philosophy to the desert air. As far as can be ascertained the visit of the other political parties have been fruitless. Every indication points to a stand-pat Republican vote for this precinct.

WILL PRESENT MEDAL.—Glenn L. Martin, the first aviator who risked his life to cross the Catalina channel from the mainland by the hydro-aeroplane is to be the recipient of a gold medal, a presentation to be made by the business men and residents of this place. From the clouds he dropped into the peaceful city May 10, scattering hundreds of sea gulls, and frightening them by his sudden appearance and the noise of the propeller. A few hours later he disappeared as mysteriously as he came. Aviator Martin is unaware that he is to be presented with the medal. It is planned to have it large enough to hold the weight of five twenty-dollar gold pieces, the design of the aviator crossing the bay between Sugar Loaf and Alhambra Point, and a diamond to represent the United States flag, which Martin carried in a mail sack when he started for Newport.

Back of the medal will be inscribed the following: "To Aviator Glenn L. Martin, a token of appreciation from the business men and residents of Avalon, Santa Catalina Island, for his heroic feat of crossing the Catalina channel by hydro-aeroplane, May 10, 1912. We wish you prosperity and success."

Dr. and Mrs. F. W. Sawyer and their children of Paso Robles registered at the Alexandria last night, en route to New York for the summer. Dr. Sawyer is the principal owner of a summer resort near the Robles.

It Doesn't Often Happen Does Happen

That Tailored Suits of the newest, nobliest fabric brought out this season—WHIPCORD—are offered at just..... \$19.50

They're not left-overs or marked down garments, but a new shipment, fresh from the designers, brought especially to sell at this price. Just the right shades for Summer wear, of gray and tan, many of them in the two-toned effects that add so much to their daintiness without detracting in the least from their serviceability.

Of course, they're tailored according to Fashion's most fastidious notions, or they wouldn't be shown at "The Style Shop."

P.S.—White Whipcord Suits are also included at this price..... \$19.50

LIBERTY'S FLAG.

(Continued from First Page.)

itself on the curbing on the other side of the street. The jury in the rear of the hall was also filled. When Miss Goldman had concluded, the casket was recovered, and the lid was piled with flowers.

At almost every turn in the line of march, and all along the way in between, the ranks were augmented by men who stepped from the pavement into the parade. By the time the cortege had reached Berendo street, where it turned to the center, there were 1000 men in line. Most of the women had dropped out by this time but twenty-five; some of them in red dresses, marched the entire distance. Emma Goldman was not in line. The services at the cemetery lasted about one hour.

OFF TO SAN DIEGO.—Immediately following the demonstration a party of ninety-two I.W.W.'s hurried to San Pedro, where they secretly embarked upon a fishing schooner bound for San Diego. The vessel cleared the port at 2:15 o'clock, every effort being made to covering the name on the stern with hanging tarpaulins.

The evident desire of the agitators, whose avowed trip was to reopen the war upon the constituted authorities of the southern city, is to prevent any advance word of their departure from being made. The vessel was bound for San Diego, and the I.W.W.'s were expected to meet there a week ago tonight.

Allowing for the delays incident to a sailing vessel's trip, the schooner should reach San Diego between 1 and 4 o'clock this morning. The authorities assume that they will endeavor to make a landing under cover of the darkness some distance above, or below the actual port, and thence reach the city on foot.

A large delegation, estimated by the police to be in the neighborhood of 150, went to the Santa Fe freight station to meet the party and took a freight for the southern city.

FORMER POLICEMAN ARRESTED.—Man Who Claims to Have Been Patrolman in Washington is Nabbed at Fresno.

(BY DIRECT WIRE TO THE TIMES.)—FRESNO, May 13.—(Exclusive Dispatch.) Henry E. Johnson, alias William Richardson, who claimed to have once been a patrolman in Washington, D. C., was jailed here today on a charge of forgery.

He is alleged to have signed the name of Dr. W. E. Gibbons of Stockton to a check for \$40, which was cashed in a drug store. The check was cashed Saturday night, but a telephone communication with Stockton revealed the fact that Dr. Gibbons was not in Fresno. The case was placed in the hands of the police.

Johnson's arrest took place in the path of the Hughes Hotel. His wife was with him when the detectives arrived and she became hysterical when told of the charge against her husband. To the detectives Johnson said he had made a confession to passing three forged checks in San Francisco, California, and one in Stockton. The checks in those cities were signed in the name of William Richardson. The local authorities believe that Johnson is a clever forger, and as soon as his picture is sent to the various peace officers it will be discovered that he is wanted in other cities.

Johnson claims to be an Elk, a Mason and a Knight of Pythias. Johnson was given the opportunity to leave Fresno after he passed the bogus check because he did not think they could afford to keep him any longer. He was released on Thursday. Johnson introduced himself in this case as Dr. Gibbons of Stockton and wrote out a prescription in the City Drug Store on Dr. Gibbons's blanks.

FORESTERS' MEETING.—With all high court officers present the fifteenth biennial convention of the Ancient Order of Foresters of the Pacific Coast was opened in Fresno tonight with a general reception at the Barton Armory hall. Owing to the illness of Mayor Howell Dist. Atty. Denver Church delivered the address of welcome. The first business meeting will be held tomorrow morning at 10 o'clock. The minutes of the last meeting will be examined.

Many important amendments will come up in addition to several minor amendments during the convention. One of the most important of these amendments is that a funeral fund be at the disposal of the high court which will pay all funerals. Delegates are here from Oregon, Washington, California, Arizona, Idaho, Montana, Nevada and the Hawaiian Islands.

MURDER CHARGES.—The charge of murder against Jesse Webb, a bartender of Madera, who on last Tuesday in Fresno shot and killed Frank A. Gordon, a wealthy vineyardist, was dropped today by Police Judge Briggs on the advice of the District Attorney, who declared that the prosecution had not a case.

The shooting took place because of jealousy over Mrs. Margaret Crane, a lodging-house keeper, and it was because that many reliable witnesses testified that Gordon had fire

Globe A-1 Flour

—My—what a fine looking pie!

—That's the only kind of a pie—or any other bakestuff—"Globe A1" Flour ever makes.

—The baking done with "Globe A1" is not only fine looking, but fine tasting as well—and it is nourishing and substantial.

—"Globe A1" will make every woman happy and contented with her baking.

Ralph Rogers, 317 S. Hill Street

There is but one piano today which clings unwaveringly to the highest ideals of artistic piano construction—but one piano which has never sought to enhance its position commercially by the building of miniature grand pianos to meet the competition of low price, nor felt the necessity of installing the piano player in its instruments in order to maintain the market for its product.

The Mason & Hamlin Piano

is the one perfect piano of today—the one piano which meets, unflinching, every demand, satisfies the most critical musicians, arouses the enthusiastic admiration of the most exacting critics; which, by the nobility, resonance and majestic quality in its tone, is winning new admirers, making new converts, building a home in the hearts of lovers of the truly artistic, and has created a demand that is the marvel of the music trades.

Mason & Hamlin pianos invite several comparisons, yet recognize no competition. Because they are better made, embodying in their construction the finest materials obtainable, and because of their patented features, Mason & Hamlin Pianos cost more than other pianos, yet, so superior is their quality, so perfect their architectural design, so beautiful their finish, that the additional cost is doubly justified.

All styles of Mason & Hamlin Pianos are shown at our stores, and are sold on easy payments, when desired.

Mother's Day was observed in the churches of this city yesterday, the sermons and song services being appropriate for the occasion. At the Methodist Church a white carnation was given to each woman entering the church, by the Barco booth stationed at the door.

Dr. and Mrs. C. F. Whitmer entertained Saturday evening in honor of their house guests, Mr. and Mrs. T. F. McCormick of Temecula. The guests were Mr. and Mrs. T. F. McCormick, Mr. and Mrs. R. M. McGarrity, Mr. and Mrs. H. Wondries, Mr. and Mrs. E. O. Tarr, Mr. and Mrs. I. M. Knoppynder.

To Keep the Face Fresh, Clear, Youthful

(National Hygienic Review.)—More important than the cosmetic care of the complexion is its physical care. To keep the face clean, fresh, youthful, there's nothing better than common mercurized wax. It absorbs the soiled or faded worn-out skin particles. Using cosmetics simply adds unwholesomeness to the complexion. That's the difference by all means, acquire the mercurized wax. It's so easy to get an ounce of the wax at the drugstore, apply at night like cold cream and wash it off next morning. There's no detention indoors, the old skin coming off so gradually no one suspects you're using anything. When in a week or two the alluring youthful, roselike under-skin is fully in view—well, you won't want, or need, make-up complexion after that.

For obstinate wrinkles, a face bath made by dissolving an ounce of sulfur in a half pint which hasel surpases massage cream for results.

FACTS, FEATURES AND FANCIES FOR WOMEN AND MEN

BY OLIVE GRAY

BEAUTY HINT: In planning for a toilet, adopt one perfume and adhere to it through the toilet. This can be done with ease, especially if you make a full range of powders, toilet soap, etc., of the same brand. One of the best houses has a range of its talcum so that it now comprises all of which are violet.

Day! I sincerely hope that every woman who can possibly do so will take the privilege of the ballot. Whether you are especially interested in politics or not, the matter should be regarded as a sacred duty.

I have always felt like censuring the man who neglected to vote, and I have grown to feel that the man who neglected to vote was a part of the nation's shame. It is a part of citizenship, quite as much as paying taxes, caring for the sanitary condition of one's premises, or educating one's children.

Of course I would like to believe that all women would vote wisely and wisely have my own ideas as to what is wise and as to which candidate has shown most consideration for women and their welfare; but, never you decide to cast your vote, I hope you will vote. I hope that no one can say of women that they have neglected any duty.

the Little Ones. One of the exclusive houses furnishing houses I noticed such cunning little trays for the child's place at the table. Each had a small "trough" in the table top, and each was in case it spilled; and each was decorated with other Dutch figures at the children sliding down hill on sleds, or other scenes of winter fun.

Of course I would like to believe that all women would vote wisely and wisely have my own ideas as to what is wise and as to which candidate has shown most consideration for women and their welfare; but, never you decide to cast your vote, I hope you will vote. I hope that no one can say of women that they have neglected any duty.

WEDNESDAY MORNING.

FACTS, FEATURES AND FANCIES FOR WOMEN AND MEN

DAILY BEAUTY HINT: In planning for the summer, it is well to adopt one perfume and to adhere to it throughout all the season of the toilet. This can be done with ease, especially since the leading perfumers make a full range of powders, toilet waters and sachets in each popular odor. One of the best houses has recently increased the range of its talcum so that it now comprises six different odors, two of which are violet.

Beauty Hint: Every woman who is going to wear a hat should be sure to wear a veil. It is not only a matter of fashion, but it is also a matter of health. A veil protects the eyes from the sun and the wind, and it also keeps the face cool and fresh. It is a very simple and effective way of keeping the face in good condition.

Beauty Hint: The most effective way of keeping the face in good condition is by using a good quality of skin cream. It should be applied twice a day, once in the morning and once at night. It should be applied to the face and neck, and it should be rubbed in thoroughly. It will keep the skin soft and smooth, and it will also help to prevent wrinkles.

Beauty Hint: The most effective way of keeping the hair in good condition is by using a good quality of hair oil. It should be applied to the hair twice a day, once in the morning and once at night. It should be applied to the hair and the scalp, and it should be rubbed in thoroughly. It will keep the hair soft and smooth, and it will also help to prevent dandruff.

Beauty Hint: The most effective way of keeping the nails in good condition is by using a good quality of nail polish. It should be applied to the nails twice a day, once in the morning and once at night. It should be applied to the nails and the cuticles, and it should be rubbed in thoroughly. It will keep the nails strong and healthy, and it will also help to prevent nail fungus.

Beauty Hint: The most effective way of keeping the teeth in good condition is by using a good quality of toothpaste. It should be used twice a day, once in the morning and once at night. It should be brushed on the teeth and the gums, and it should be rinsed out thoroughly. It will keep the teeth white and healthy, and it will also help to prevent tooth decay.

Beauty Hint: The most effective way of keeping the skin in good condition is by using a good quality of skin cream. It should be applied twice a day, once in the morning and once at night. So Say Laundrymen. EIGHT-HOUR LAW HURTS DOUBLY.

YEAR'S TRIAL NOT SUCCESSFUL, ACCORDING TO BOSSES.

State Association Tells Mayor Convention Will Not Consider Raising or Lowering Rates. Greater Efficiency to Be the Aim of Dirty Linen Cleaners.

That a year's trial of the eight-hour law has proved the measure works a hardship on both laundries and laundry workers is a statement in a paper to be read by Secretary James Jordan of San Francisco at today's session of the Laundrymen's Association of California. The title of Jordan's paper will be "Legislation: Future Possibilities."

One hundred and sixty laundry owners and managers, some with their wives, are attending the annual convention, which opened yesterday morning in Symphony Hall. The headquarters of the men, who work at the Hollenbeck Hotel, which was crowded all day with the beribboned delegates.

The Mayor was introduced at the opening by President Phineas Ferguson of Oakland. After welcoming the men of soap and starch, the Mayor set beside Secretary Jordan and asked him if the laundrymen will decide to lower or raise the price of washing and ironing at this convention. Jordan informed him that the gathering of the laundrymen was not for that purpose; that they were meeting solely for the discussion of more efficiency in getting out laundry work and were also out to have a good time.

The delegates made a good start toward enjoying themselves yesterday. Early in the afternoon 135 of them boarded automobiles and toured the outlying country. Luncheon was enjoyed at the Los Angeles Country Club. Last evening they attended the Orpheum performance, sitting in a body.

There will be two sessions today. F. L. Rosenau of San Francisco, George E. Ryan of this city, Secretary Jordan, R. Huret of San Francisco and J. P. Hammond of San Francisco will read papers on matters interesting the laundrymen. At 2 p.m. J. N. Burroughs of Oakland will talk on "Business Conditions." J. R. Coffman of this city will read a paper on "Organization," and J. F. Cluett of Long Beach will talk about the cash system which all the laundries have inaugurated. The election of officers and selection of the next place for meeting will follow.

For the purpose of holding the next convention and to boom the election of F. L. Rosenau as president, San Francisco sent the following delegation to the convention: Charles Packard, James Finnegan, Barney B. Gailen, John F. Clute, G. S. Howard, F. P. Ferguson, L. L. Swanson, Francis G. A. Hammond, B. W. Scanlon, A. S. Neal, A. Bowers, D. E. Duffendorf, Charles P. Kane and J. McCarty.

Oakland has the next largest delegation, sending: James Brown, Thomas Blodgett, M. Rogers, C. C. Burroughs, M. P. Forte and J. Bonabean.

Other prominent laundrymen attending the convention are: N. E. Douglass, Napa; Richard Phair, Sacramento; James Albright, Fruitvale; A. N. Davidson, Fresno, and H. Carlson, Berkeley.

BOTH LITIGANTS SATISFIED.

Land Office Officials Decide Imperial Valley Case in Novel But Effective Manner.

A decision out of the ordinary was given yesterday by Register Buren and Receiver Robinson of the local land office. The fact was thereby demonstrated that the land office has power in land matters to disregard the letter of the law in cases where equity appears to require it, and make such disposition of the property involved as will give substantial justice to all of the parties concerned.

The instance arose in the disposition of a land contest brought by Joseph Guthrie against Mary E. Pearson, for the possession of 169 acres of land in the Imperial Valley. The land was originally filed on by the husband of Mrs. Pearson, and some improvement on it. Mrs. Pearson could not complete the government contract, and in order to save the land, his wife filed on it, the husband signing a relinquishment. This gave the woman a legal title through the act of filing.

Guthrie afterward went on the land and made it his home, thinking that it was vacant or had been abandoned. He built a good house and cultivated ten acres of the land. Thus Guthrie had what is known as the settlement right.

Register Buren and Receiver Robinson concluded to do the Solomon act, and divide up the land. Guthrie was given the forty acres upon which he had done his work and Mrs. Pearson gets the remainder of the tract, 129 acres.

EXPERT ON THE GRILL.

Government's Star Witness in Exposed Land Suit Has Day of Tills With Railroad Answer.

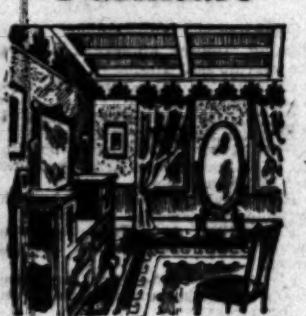

It was a battle of wits yesterday in the hearing of the case brought by the government against the Southern Pacific Railroad, for the cancellation of the patent to 4000 acres of supposed oil land in the Elk Hills. The day was devoted to the cross-examination of A. C. Veatch, government geological and mineralogical expert, by C. H. Lewers, attorney for the railroad.

Veatch acknowledged that he had been sent to California by Atty-Gen. Wickereham, for the express purpose of assisting Special Assistant Attorney-General Mills in the preparation of the evidence. He made three trips to the Elk Hills, spending a few days on each occasion, and covering the entire territory. The witness also admitted that he had made no special examination of the land patented to the defendant corporation, but based his opinion on what he saw in the territory from a geological standpoint, and what he had read of bulletins dealing with the subject before he came to California.

Veatch insisted that the Elk Hills are oil bearing, and he would not say that the fluid existed in commercial quantities. The sand and croppings of the rocks told him that oil was to be found there, he said.

The cross-examination indicated that the witness disagreed with eminent geologists who had made a close study of the oil-bearing qualities of the Elk Hills.

PRESERVE REAL BEAUTIES.

Outdoor Art League of Southern California Formed With Sixty Members—Aims and Objects.

Having as its object the preservation of the natural beauties of the foothills and to encourage the planting of native trees, flowers and shrubs, the Outdoor Art League of Southern California was organized at a meeting of real estate operators, nature students, botanists and others yesterday afternoon in the Trust and Savings building.

It is the plan of the league to establish at once a permanent advisory committee to co-operate with any individual or association interested in saving many of the natural beauty sites of the Southwest, or who are desirous of improving property with California flora.

It is also announced that a lecture bureau will be organized to provide speakers to address women's clubs or any other bodies interested in the outdoor art movement. Men are to be put to work at once on the drafting of a natural beauties map of Southern California, with special reference to the foothills and arroyos. Unimproved properties that are available for beauty purposes will be shown on another map.

It is the intention of the members of the league to co-operate with any organization which comes within its scope. A wide educational campaign is among plans on the table. The league was organized with sixty members, and Charles G. Smith was elected president; Harold Jamm, vice-president; Ernest Ingrid, treasurer, and Warren McIntyre, secretary. Charles A. Elder is chairman, and the following are the other members of the board of directors: S. A. Stetson, H. G. Badger, Dr. Herman Janss, G. F. Cimoli, Sterling W. Banks and Albert H. Beach.

PERSONALS.

W. E. Mackinham of London is registered at the Levensham. He represents an English syndicate which has holdings in the Kern oil fields.

J. D. Hale of Rocky Ford, Colo., is registered at the Hayward. Hale is the originator of the well-known variety of cantaloupes, grown extensively in Imperial Valley, which bear the name of his home city.

R. E. Plosser, traveling passenger agent of the Chicago, Burlington and Quincy Railroad, whose home is in Chicago, is registered at the Hayward. G. S. Holmes, Salt Lake City hotel and mining man, is a guest at the Angelus.

On the Hollenbeck Hotel register is the signature of James M. Drayton of Tucson, who arrived yesterday. Drayton is the principal owner of the Loma Verde mines, located ten miles east of Tucson.

Mrs. Charles Parker Barnett of Portland, Or., and her daughter, Miss Claudia Windsor of Richmond, Va., are in the city. Miss Windsor is known as one of the best horsewomen in the South, and has ordered a mount for every horse she has here, which will be for a considerable time.

Mr. and Mrs. Alexander Robb, prominent landholders of Auckland, New Zealand, arrived in San Francisco yesterday and are expected here today or tomorrow. They will visit Gordon Robb, a relative, at No. 314 South Hope street.

Mr. and Mrs. R. T. Talpes of El Paso arrived yesterday. Talpes is the owner of a haberdashery.

Home Helps For The Hair and Complexion

The right sort of care of hair and scalp requires little time and is productive of a healthy scalp and silky, shiny hair. Canthrox shampoo solves the problem for women troubled with oily, "stringy," unmanageable hair, and is so enjoyable that shampoo day is pleasantly looked forward to. A teaspoonful of Canthrox dissolved in a cup of hot water is enough mixture, and its regular use insures a healthy scalp and a wealth of beautiful, fluffy hair.

A spumax lotion is excellent for clearing the skin of all impurities, and is so superior to powder that once it is used it will never be discarded. To make, dissolve 4 ounces of spumax in 1/2 pint witch hazel (or hot water) and add 3 teaspoonfuls glycerine. The use of this lotion gives to any skin a charm and elegance unobtainable any other way.

Special Accommodation for Ladies

WHICH DOES SOUTHERN CALIFORNIA PREFER?

WILLIAM HOWARD TAFT.

This is the President who signed the old soldiers' pension bill. This is the friend of Southern California who opposes placing on the free list lemons, olive oil, wool and sugar.

These are the delegates who favor the industries of Southern California:

1. Abbie K. Krebs
2. Ella L. Westland
3. W. A. Porter
4. W. C. Patterson
5. Dr. Rae Felt
6. A. Hochstetler
7. Albert F. Ross
8. C. Voorhies
9. Arthur E. Miller
10. A. W. Simpson
11. E. H. Tryon
12. Morris Meyerfeld, Jr.
13. Charles A. Nelson
14. A. J. Martin
15. George T. Hawley
16. George W. Scott
17. Dr. Chester Rowell
18. Wallace Morgan
19. Charles N. Felton
20. Louis Jones
21. John Murray Marshall
22. Stephen Townsend
23. John S. Mitchell
24. W. L. Valentine
25. C. C. Chapman
26. M. L. Ward

On the Roosevelt ticket is this Congressman who voted against the old soldiers' pension bill on May 10, and who voted to place lemons, olive oil, wool and sugar on the free list:

WILLIAM KENT.

JURY TRIALS FOR CHINESE.

OTHER GREAT REFORMS FROM THE CABINET.

Members of the Republican Organization appear before the Provisional Council in Peking on invitation of Tang Shao Yi to prevent overthrow of government.

(BY A. P. NIGHT WIRE TO THE TIMES.)

PEKING, May 13.—All the members of the Chinese Republican Cabinet at present in Peking appeared today before the provisional council and promised the introduction of reforms in the administration, and extensive modern developments to include trials by jury, the reorganization of the army and navy, a general system of education, sound methods of taxation, including the introduction of the income tax and the establishment of a national bank.

The visit of the cabinet ministers to the provisional council was apparently an effort on the part of Premier Tang Shao Yi to prevent his impending overthrow.

Premier Tang Shao Yi was closely questioned during a secret session of the council. Certain of the councilors declared that Tang Shao Yi paid over to Dr. Sun Yat Sen personally \$1,000,000.

The councilors charge the government of the Premier with contracting and spending the Belgian loan without consulting the council.

The members of the council declare, following the example of the foreign legations and the bankers representing the six powers, that the Chinese government cannot be trusted to dispense the loan in the six powers without supervision. The council, however, desires to control the dispensation of the loan in order to rely on foreign supervision.

Tang Shao Yi promised to submit his accounts and also the account of the current years which the council demands. Nevertheless his downfall is expected.

Owing to the desperate needs of funds the officials of the finance board pay daily visits to the banks representing the "sixteen" and to the foreign legations, endeavoring to devise a means of obtaining money for paying off the troops and reconstructing the government with a minimum of foreign supervision over the expenditures.

OBITUARY.

CLAUDE MANNING FALL.

CLAUDE MANNING (Mann) May 13.—[Exclusive Dispatch.] Claude Manning Fall, actor, author and poet, died at his home today after a brief illness, at the age of 51. Mr. Fall was an actor of note in his younger days and when he left the stage he took up writing his "What and How," which met with instant success. He was called "The Fisherman's Laureate" by critics. He has always made his home among the fishermen of his native town.

SMITH COMING HOME.

WASHINGTON, May 13.—[Exclusive Dispatch.] Representative Smith, who has been sick since last December, has sufficiently recovered to start for his home in Bakerfield, Cal., on Thursday. Mr. Smith has been present on the floor of the house only once since he was sworn in. Representative Neaseman will leave after legislation that Smith is interested in.

SMITH COMING HOME.

(London Chronicle.) The board of green cloth is responsible for inventing "blackguard," a word that has strangely altered in meaning. In early times it was by no means a term of reproach, but referred to the lowly but honorable calling of carrying coal in the King's household. Is there any other bad word in the English language that can boast of such a royal origin?

Why He Was Late.

"What made you so late?" "I met Smith."

"Well, that is no reason why you should be an hour late getting home to supper."

"I know, but I asked him how he was feeling, and he insisted on telling me about his stomach trouble."

"I'll bet that's what he was doing."

"Sure, that is what he was doing."

WYOMING REPUBLICANS INSTRUCT FOR TAFT.

(BY A. P. NIGHT WIRE TO THE TIMES.)

CHEYENNE (Wyo.) May 13.—In their State conventions here today the Republicans instructed for President Taft, the Democrats for Charles Clark as long as there is a possibility of his nomination.

The Democrats denounced the methods of the Department of the Interior as a system of espionage unjust to the homebuilder, and expressed a demand that the Federal administration of land laws be so changed as to pass all public lands into private ownership as rapidly as possible.

Instruction of the Democratic delegates caused a heated contest. The majority report of the Resolutions Committee favored instruction. The minority recommended an unrestricted delegation. At the conclusion of the reading of the reports the chair sustained a motion to adopt the minority one. This precipitated a bitter fight, the Clark men contending they had a right to express their

THEORIES FLEE LIKE SHADOWS.

So-called Clues Dissipated by Explanations.

Scores of Persons Mistaken in Identification.

Police Handicapped by Wild Ideas of Amateurs.

Los Angeles several months ago. But it was learned that that woman several times had appeared at the institution with a trained nurse's uniform on. She said that she had been married and that she and her husband were traveling about the State and could not take care of the child.

K. R. Watkins, No. 153 West Thirtieth street, and his wife, who run an orphanage, called at the morgue and said that they believed that she was the woman who had left the child in their care for several months. However, their identification was anything but positive and the police took little stock in the matter that the murdered woman and the one they knew were identical.

Advices from Chicago last night went to the effect that the police there believed that the slain woman was Elizabeth Burns and that they were on the lookout for a former sweetheart of hers, Lieutenant James V. Larkin of Chicago, after talking with Mrs. Michael Healy, a sister of Miss Burns, sent a telegram to Chief Sebastian asking him to try and locate the wife of the man who was supposed to be afflicted to Miss Burns.

FOR WATER DEVELOPMENT.

United States Report Is of Great Assistance to the Ranchers of Pomona Valley.

POMONA, May 13.—Ranchers who are engaged in the improvement of lands and development of water in Pomona Valley are finding much dependable data to assist them in the United States Experiment Station bulletin containing the observations of C. E. Zalk, irrigation engineer, embodied in an exhaustive report entitled "The Use of Underground Water for Irrigation at Pomona, California."

The report was based on the work done in cooperation between the government experiment stations and the State of California. It states that there are 200 pumping plants and a number of artesian wells in a range of ten miles of Pomona representing an approximate investment of \$1,000,000, with \$100,000 additional for distributing pipes and smaller reservoirs. The report further states that there are 7454 acres set to oranges, 585 acres in lemon groves, and 2500 acres of young trees not in full bearing and 500 acres of vineyards.

NEW SOCIETY.

As a result of the meeting of citrus fruit growers held at McChesney Hall on Saturday afternoon, the Pomona Valley Orchard Protection Association has been organized for the purpose of uniting the growers in the movement for protection of the citrus groves of the valley against frost. This is the first body of its kind organized in the United States and starts out with an enrolled membership of 1500 growers representing more than 2000 acres and many more growers will join the association. Scientific modern methods of fighting frost will be carefully studied by competent committees and every possible means will be taken to eliminate objectionable features like smoke and soot from smudge pots, which proved such a nuisance during the past winter.

The newly-elected officers of Southern California Commandery, Knights Templars, of this city are: F. H. Nichols, Eminent Commander; F. H. Hyatt, Generalissimo; F. R. Lewis, Captain; General; F. W. Barnham, Senior Warden; W. A. Junior Warden; J. A. Gullup, Recorder, and C. Stone, Treasurer.

Secretary W. D. Frederick of the Mutual Building and Loan Association of this city and Secretary C. E. Gresser of the Home Builders Association are in San Jose, attending the annual convention of the State Building and Loan Association.

The improvements now being made in the first floor of the Hotel del Coronado will cost over \$1000.

SUMMER RATES AT "HOTEL DEL CORONADO."

MAGDALENA BAY.

Place Where Rain Has Not Fallen for Fourteen Years and There is a Long Thirst.

[Army and Navy Journal.] The strategic possibilities of Magdalena Bay are indicated by the fact that it is the coast of the Peninsula of Lower California 1000 nautical miles south of San Francisco and over twice that distance northwest from Panama, and is the only great anchorage between the Golden Gate and the Isthmus. It is a sheet of water forty miles long, divided by the island of Santa Margarita, a long narrow strip of land, barren and of volcanic origin, into two bays, of which the northern one is properly referred to as Magdalena Bay. The southern division being usually called Alameda, or Almaraz Bay. The old-time whaler termed these divisions Weather and Lee bays. J. Ross Browne, who examined the bay for a concession of land about the bay, though impressed by the magnificence of the bay and its availability for naval purposes and charmed by the salubrity of its climate, reported adversely as to adaptability of the adjacent lands for agricultural purposes. "Until within two weeks of our visit," he wrote, "it was said by one person near the bay that rain had not visited this region for 14 years." Thirst, thirst, always thirst! As a result, the region is practically uninhabited. Admiral Dreyer arrived here tonight from Chihuahua, still insisting that Emilio Vasquez Gomez is his candidate for provisional President. Four prominent business men from Mexico City reached here today en route to Jimenez to confer with Orozco and place before him the name of Garcia Granados for provisional President. Granados was a member of the Cabinet of President De la Barra.

A LITTLE SAGE AND SULPHUR MAKES THE GRAY HAIR VANISH.

Who does not know the value of Sage and Sulphur for keeping the hair dark, soft and glossy and in good condition? As a matter of fact, Sulphur is a natural element of hair, and a deficiency of it in the hair is held by many scalp specialists to be connected with loss of color and vitality of the hair. Unquestionably, there is no better remedy for hair and scalp troubles, especially premature graying, than Sage and Sulphur, if properly prepared.

The Wyeth Chemical Company of New York put out an ideal preparation of this kind, called Wyeth's Sage and Sulphur Hair Remedy, in which

Exposition Park Square

Here is a beautiful Home Tract served by SEVEN CAR LINES and in the center of a fine built-up district.

Exposition Park Square

You Will Realize That It is the One Logical and Ideal Spot for

Your Home

Right across Santa Barbara Ave. from this beautiful Home Tract is the celebrated Exposition Park, where great sums of money are being spent which will increase values for YOU if you secure one or more of these lots NOW before we are compelled to raise the prices. Close by are the Manual Arts High School and the University of Southern California.

Present prices will appeal to your sense of investment. Fine lots with protective restrictions are selling at \$1500; others for more or less money.

You Will Surely Be Pleased At

Exposition Park Square

From the standpoint of INVESTMENT alone, these lots will appeal to you. They are the ideal Home lots. Think of living where you have

THE PUBLIC SERVICE.

(Continued from Second Page.)

H. J. (Lucky) Baldwin, aggregating \$50,000, and two mortgages amounting to \$14,119.40 were consumed by Judge Willis, sitting for Judge Rives, in the Probate Court yesterday. The purchasers of the real estate are: Clara Baldwin, \$500; W. L. C. Baldwin, \$500; G. D. Jennings, \$7000; Guy D. Huffer, \$10,000; Susan Deville, \$7000; Jerome Reynolds, \$7000; P. C. Chasman, \$5000; V. O. English, \$3500.

A mortgage was sold to the Los Angeles Trust and Savings Bank for \$44,000.00, and the Union Savings Bank of Pasadena bought one for \$5000.00. These were mortgages received by Alexander Duran on various sales of real estate.

RECEIVED JUDGMENT. COMPANY FORFEITS CHARTER. Argument in the suit of Carolina W. Dobbin against the Los Angeles Suburban Gas Company on the motion to set aside the judgment in foreclosure proceedings on the 2 John's street plant, was partially heard by Judge Wilbur yesterday. The case was continued until Monday.

COUNTYHOUSE NOTES. BREWSTER MURKIN. CHARGED with the slaying of their father, George Tans, at Compton, Roy and Frank Tans were arraigned in the Juvenile Court yesterday, and pleaded not guilty. They will be tried tomorrow. They will be represented by Attorney Perkins.

WANT TAXES BACK. Wells Fargo & Co. filed a suit against the city yesterday for a refund of \$792 taxes, paid under protest. The property taxed, the company alleged, was used exclusively in the operation of its business and not subject to assessment by the city.

DENIES NEW TRIAL. The city's motion for a new trial in the Twelfth street matter was denied by Judge Finlayson yesterday. This was a suit brought by Ida M. Shaffer and others against the city in the opening and widening of Twelfth street from Figueroa to Sanborn streets. The court held that the ordinance of inclosure did not describe the boundaries of the assessment district, and judgment was given against the city. An appeal will now be taken by the city.

IN THE INTERIOR COURTS.

Young Man Who Holds Up and Robs Elderly Man on Street and Is Captured, Sentenced Six Months.

Edward Kelley, who held up and robbed Andrew Pearson, No. 1630 McGarry street, Sunday morning, and who was arrested after chase of five blocks, was sentenced to six months in the City Jail yesterday by Judge Judge Williams of the University Court.

Pearson, who was badly beaten by Kelley, and the latter's friend, testified that he was arrested after chase of five blocks, was sentenced to six months in the City Jail yesterday by Judge Judge Williams of the University Court.

A Dangerous Individual.

C. J. Kingsbury was fined \$40 by Justice Chambers in the Police Court yesterday for driving a team through the streets while in an intoxicated condition. He was arrested by Patrolman H. R. White after he had collided with another vehicle. The collision occurred on the East side. In imposing sentence, Justice Chambers remarked that a drunken man in charge of a team or an auto is about as dangerous as an individual on a crowded thoroughfare as one would care to meet.

Man of Mighty Arm.

John Rodkoff gave an exhibition of his physical prowess in Elysian Park Sunday afternoon by tearing limbs off small trees. While in the act of pulling a limb from an especially well-formed tree, Park Inspector C. Bryan appeared from behind a clump of bushes. The latter testified before Police Judge Chambers that Rodkoff killed one tree. Thereupon the man with the mighty arm was fined \$10 or twenty-five days.

Spirits Good; Checks Bad.

Charles Parker, charged with passing fictitious checks, was bound over to the Superior Court under \$1000 yesterday by Police Judge Rose following a preliminary examination. When the defense asked that bail be reduced to \$1000, the prosecution threatened to file additional charges against the defendant. It is understood the defense will be that Parker came into possession of the checks in good faith and passed them in the same spirit. There were five of them totaling \$100.

Three Against One.

John Nehr, proprietor of the Concordia Cafe, No. 584 South Main street, was arrested yesterday on a complaint charging him with selling liquor on Sunday in his cafe to be drunk off the premises. The alleged evidence was secured by Officers Carbar, Kennedy and Luth of the Metropolitan Squad. After pleading not guilty, Justice Chambers released Nehr under \$100 bail for trial, the date to be set.

Created a Rough House.

Thomas Rowan was haled before Police Judge Chambers yesterday on a charge of disturbing the peace. It is alleged that when Rowan was drunk in a saloon at No. 121 East Fifth street, he knocked down J. G. Goidie, the bartender, with a club and assaulted the proprietor. He pleaded not guilty and demanded a trial. His case was set for May 15th inst.

Charged His Residence.

John Dobson will remain ninety days in the City Jail for breaking a dish on the head of Fred Lorenson. Dobson, imprisoned by Police Judge Chambers, is charged with having broken a dish on the head of Lorenson, who was charged Lorenson with some boy friends on East Ninth street. Dobson was charged Lorenson and the boy out of the show, all escaping out Lorenson.

Stolen Sweet's Sentence.

H. A. Stewart, the youthful "Joy rider," who "borrowed" W. H. Moore's auto several nights ago from his garage, No. 450 Central avenue,

SCOTT BROS.

FOR \$15 SUITS SEE OURS. LARGE ASSORTMENT.

bringing it back in a wrecked condition, was fined \$10 or fifty days by Police Judge Chambers. It was testified that Stewart took the auto to give a young woman friend a ride.

PREPARE FOR ELECTION.

South Pasadena Is Ready for the Presidential Primary—All Is Ready for the President's Indorsement.

SOUTH PASADENA, May 13.—The following polling places have been named by the county officials for South Pasadena for the Presidential primary election, also for the candidates for membership on the Board of Freeholders tomorrow: First Precinct, basement of Lincoln Park School; Second Precinct, No. 515 El Centro street; Third Precinct, No. 1832 Mission street; Fourth Precinct, garage in rear of No. 1781 Mission street; Fifth Precinct, tent at the southwest corner of Huntington drive and Princeton avenue; Sixth Precinct, basement of Marjorie-avenue school.

NEW BILLY.

Although the season is drawing to a close the baseball team of the High School is working hard to perfect its team work, and several changes for the better have been made in personnel. Roy Pearson has been added to the pitching staff. Stockman goes behind the bat. Coots goes to center field and Beasley will hold down second base.

The Memorial Men's Club of the Baptist Church held its regular meeting this evening in the basement of the church, supper being served at 6:30 o'clock. An informal discussion was held as to the advisability of building a gymnasium in connection with the church for the use of members and Boy Scouts.

To the pupils of the El Centro school of this city has fallen the unusual lot of criticizing the manuscript for a new book of fairy tales which is being written by Judge Curtis Wilbur of the Los Angeles Juvenile Court. Mrs. Elsie C. Bartlett, teacher of the second grade, after reading to the pupils from Judge Wilbur's book, "The Bear Family at Home," asked them to write letters to the author giving their opinion of the stories which were forwarded to Judge Wilbur. In reply he sent the manuscript of his new book, "Johnny Finds the Magic Vest," to be read to the children of the school to get their opinions. The manuscript is now being read on the installment plan, and following the final story they will be asked to pass judgment in letters as before.

Most for the money at Coronado.

BOY DIES OF LOCKJAW.

Redondo Beach Youth Runs Silver in Leg and Tetanus Causes Death Shortly Afterward.

REDONDO BEACH, May 13.—Funeral services were held this afternoon over the remains of George Moull, the 13-year-old son of Mr. and Mrs. George Moull, who died Friday evening from lockjaw. His schoolmates of the fourth grade of the Central school attended the services in a body at the undertaking parlors of George Cate, Rev. A. E. Wolfe had charge of the service and the remains were buried at Belvidere.

Ten days ago the boy ran a silver of a stick into the fleshy part of his leg between the knee and thigh. The leg did not give him much pain and the injury was not thought to be serious at all until a week later. Dr. E. G. Butt was then called and found the boy suffering from tetanus. The child suffered intensely for two days and died in convulsions Friday evening. This is the first case of tetanus in this city, as it is but rarely found where there is sandy soil, as the doctors state the tetanus germ does not live in sandy soil.

The parents of the child, who came here about four months ago, are heart-broken. They live at No. 537 North Francisco avenue. Tent City is being rapidly opened up for the summer, and a number of reservations have been for the summer months. Reservations made by prospective patrons for the Redondo Hot Springs for the near future also herald the coming of the summer colony.

Carnation Chapter Order of the Eastern Star will celebrate the thirtieth anniversary of the chapter tomorrow evening with a banquet.

NATURE SKETCHING

Is most enjoyable at this season of the year. The place to buy your sketching outfit is the

Artists' Material Department of Sanborn, Vail & Co.

We have the compact easels and umbrellas, the Japanese tin boxes for your materials and the portfolios for the completed sketches.

Architects and builders will find our headquarters for tracing papers, T squares and triangles, draughting instruments and supplies.

Treble Your Money In Chandler Townsite

Business or Residence Property!

Sale of Lots Begins May 16th

\$200 invested in a lot in Chandler Townsite may be worth \$800 in twelve months, if the present rate of development of Chandler Ranch is any criterion. This ideally planned town is strategically located right in the heart of the great Chandler Ranch, where nearly three-quarters of a million dollars' worth of orange and alfalfa lands have been sold to California ranchers and fruit growers during the past few months.

Nearly a hundred thousand acres of rich lands are tributary to this central trading point. It is also surrounded by the world's richest mining districts. The millions of dollars' worth of products which will be produced around Chandler will eventually make the town one of the most important trading points in the Southwest. The fertile territory

around and tributary to Chandler is irrigated by the great eight-million-dollar Roosevelt Water System—probably the best system of its kind in the world.

Chandler is far from being a boom town. Its opening will not be accompanied by a flourish of trumpets or any special celebration. Chandler will grow naturally and conservatively. The town is being started right, under the supervision of the best architects and engineers in the West. You can join our special excursion tomorrow and visit the townsite and the wonderfully rich agricultural district around it—or you can buy a business or residence lot from our maps right here at our Los Angeles offices. You can't make a mistake—our plats give you the complete situation.

Lots \$200 to \$1000.

1/4 Cash, Balance 1, 2 and 3 Years

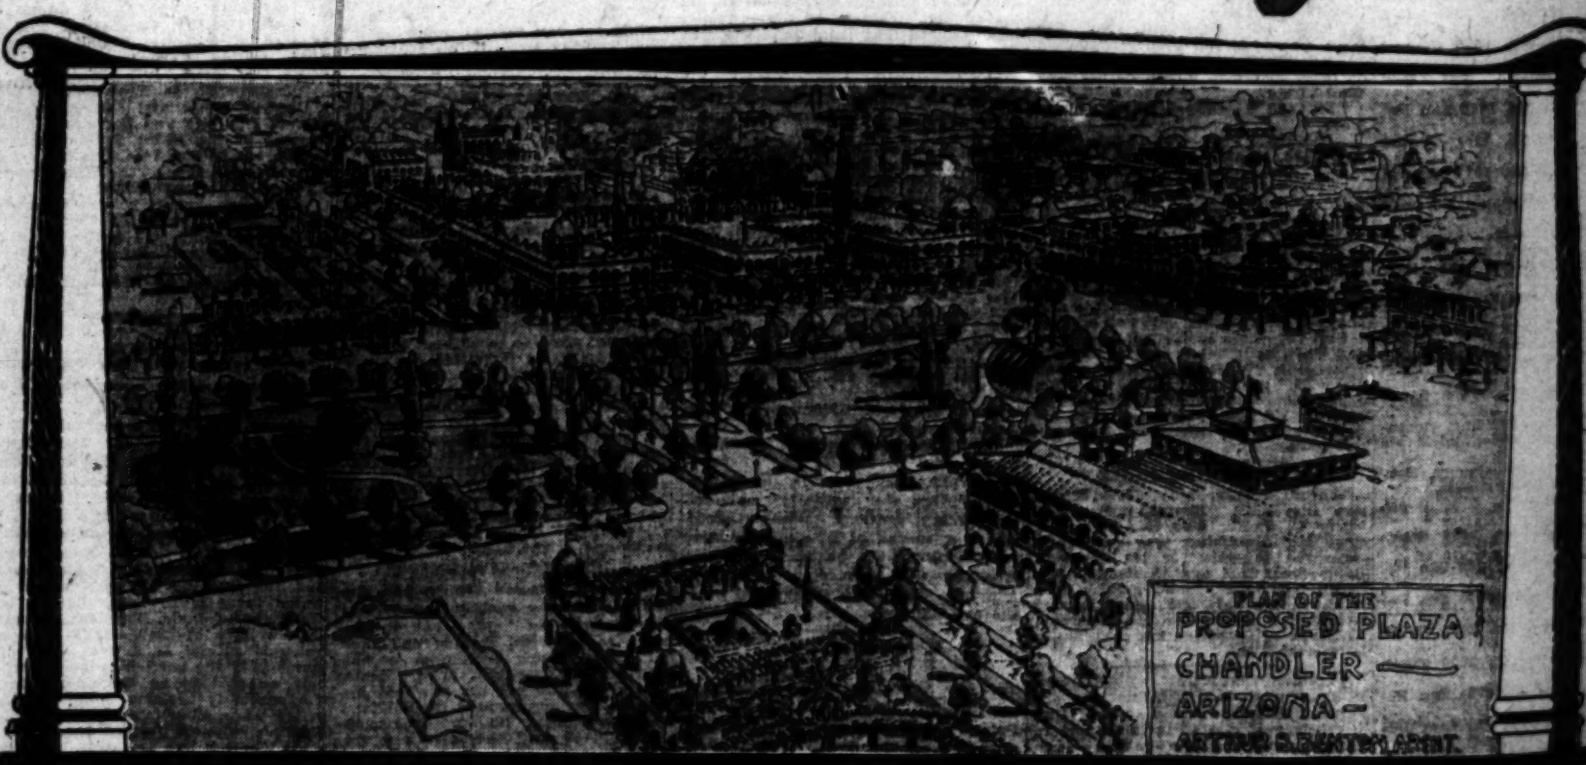

Buy today, and you have one whole year in which to take advantage of the increase in property values before you have to pay out another dollar. You pay one-fourth down, and when your lot has doubled in value you HAVE MADE FOUR DOLLARS FOR EVERY DOLLAR YOU HAVE INVESTED. The country around Chandler is growing so fast that it has been almost

impossible to furnish school facilities fast enough to keep up with the influx of children—it has actually been necessary to add another unit to the fine building being constructed before the first part was completed. AND ALL THIS HAS HAPPENED BEFORE A LOT WAS OFFERED FOR SALE. Write or call for large illustrated folder.

Climate Failed--Medicine Effective

Rest, fresh air, and good food do help many persons suffering from Tuberculosis, but, to be honest, it must be admitted that the disease is seldom more than "arrested." Something more is needed. Eckman's Alternative is a medicine made for the treatment of Tuberculosis. It has arrested this disease again and again and for that reason we argue and urge that Eckman's Alternative should be used in every case of Tuberculosis. In addition to good, nourishing food and fresh air, which we all need.

The facts—the evidence of recoveries that have been made—are interesting reading. A remarkable case follows: Weldon, Ill. "Gentlemen—Through Eckman's Alternative I have been saved from a premature grave. On December 14, 1904, I was taken with Typhoid Pneumonia. My lungs became very much affected and I was advised to go to Fort Worth, Texas, and from there to Colorado. After being in Colorado two weeks, my physician informed me that nothing could be done, as my case was hopeless. Three weeks later I returned home. On July 14, 1906, I began taking Eckman's wonderful remedy for Consumption, and since that time have been stout and well."

(Signed Admavi) ARTHUR WEBER, Eckman's Alternative is effective in Bronchitis, Asthma, Hay Fever, Throat and Lung Trouble, and in upbuilding the system. Does not contain poisons, opiates or habit-forming drugs. For sale by The Owl Drug Co., and other leading druggists. Ask for booklet telling of recoveries and write to Eckman Laboratory, Philadelphia, Pa., for additional evidence.

MODERN METHODS CHEATING DEATH

FAT BURDENED PEOPLE REJOICING

According to the Syracuse Journal, Dr. Porter, N. Y. State Commissioner of Health, is authority for a "statement" to the effect that four deaths out of ten might be prevented; that the ravages of disease are also preventable by using common-sense and that public health in general, can be obtained at slight cost. Thousands of people die every year from the effects of too much fat. By neglecting to do what would cause fat to disappear they just as good as commit suicide. Why over-fat people do not awaken to their dangerous condition is the wonder of the thinking world. Why women of means and opportunity, who use good judgment otherwise, permit days, weeks, months, even years to pass without writing to the famous Marjorie Hamilton, Suite 216A, Central Bank Building, Denver, Colorado, for full explanation of her marvelous drugless, home treatment for removal of superfluous fat cannot be understood. It is criminal to put off the serious matter of fat reduction considering its ill effects upon life and the human system, and to drug oneself is wrong insurance, as the cause must be removed, not covered or nursed. The slimming of cause is where the treatment offered by Miss Hamilton is especially strong and the basic reason for the wonderful success of same throughout the world.

You Can Secure This Superb Work Only Through The Times

It tells both sides of the story. The Brady photographs were valued by Grant and others at one hundred and fifty thousand dollars. When they were recently brought to light again, the great publishing alliance which The TIMES has entered, spent over one hundred thousand dollars in identifying and arranging this splendid mass of material.

The entire series is chronological. These pictures have been carefully arranged in their order of sequence. The first part begins with Sumter and Bull Run, and the last describes the surrender at Appomattox. It is not enough for the photographs to be interesting and unique—they must also tell their story to the reader in a direct and clear-cut way. They do this by following the absolute order of events so that the pictures alone, without the story accompanying them, will give the reader a complete view of the war from beginning to end. This invaluable feature is true only of the work offered by The TIMES.

Each picture is fully described. With each one of the splendid photographs which profusely illustrate this work you will find a full and complete story.

The history is new and impartial. We not only give full descriptions of all the pictures published, but we also give the complete new history of the war from the pen of Prof. Henry W. Elson. This is not a rehash of old material, or a one-sided story such as found in other works, but is new and has been especially written for this work.

In each part as issued weekly by The TIMES, for sixteen weeks, Prof. Elson takes up some one great event of the war and deals with it as a whole. The reader thus has a complete account in each part, prepared especially for the pictures which accompany it. This is true only of the present work issued by The TIMES.

No Other Work Has Ever Elicited the Thousands of Commendations Received by This Wonderful Series

The Secretary of the Navy—

You are accomplishing a work of inestimable value in restoring the scenes of half a century ago.
G. VON L. MEYER.

The Secretary of War—

Although I have long made quite a study of the great conflict, it has never before really been home to me in the way in which these pictures do it.
H. L. STIMSON.

The Chief of Staff, U. S. A.—

Of great value in giving to our people a better idea of the Civil War. The photographs are very good.
LEONARD WOOD.

Theodore Roosevelt—

A really noteworthy work. The photographs thus collected are not only of a permanent value, but will have a steadily increasing value for the historian as time elapses.

WHIT'S FROM THE OLD SPORT RIDE

A self-sufficient New York sport writer speaks of the coming Rivers-Wolgaast fight as a "little try-out." Rivers has "tried out" a considerable number of glittering young pugilists since from New York and at last accounts the surgeons said that some of them might possibly recover their health and strength in time.

Willie and Joe.

The greatest chance for a fight in the country would be between Willie Ritchie and Joe Rivers. Their styles are a good deal the same. And, say, it would be real class.

Mackerel Were Out.

An old-fashioned run of mackerel took place at Redondo yesterday. More than \$500 fish were yanked in onto the wharves in a short time and some individuals hooked from fifty to 100 fish. They began swimming around the wharves early yesterday morning and the run continued all day and all night.

Mrs. C. R. Goodrich caught 100; A. Brooks took home fifty. Peter Barco hooked eighty between 6 o'clock and 8:30. Jack Foster of Los Angeles caught twenty-five. Another big run is predicted for today. The deep-sea fishing is also going great. Two fishermen brought in 1000 pounds of barracuda yesterday.

Johnson's Training.

Two years ago yesterday Jack Johnson began training for his fight with Jim Jeffries. The big dinner, says a telegraph dispatch, cited this fight told him he was starting in too late to train for his fight. He is doing road work and boxing with Marty Cutler and Jumbo Wells. He says he has taken off eight pounds in a week. His intention, he says, is to do most of his training in Chicago. Yes, and he may train so long in Chicago that he will forget all about going to Los Vegas for the fight.

Matching Coals.

Contracts will probably be signed this week matching Johnny Coulon and Digby Stanley, and Knockout Brown and Johnny Kilbane. Coulon has agreed to make 114 pounds for Stanley. He only weighed 112 when he met Solberg in Brooklyn last Wednesday. Digby Stanley is the bantamweight champion of England. McCredie's New Pitcher.

Irving Higginbotham, former pitcher with the Chicago and St. Louis Nationals, was released by the Toledo club to Portland yesterday. He will leave for the Coast at once.

Sam Fancher Meets Elmer.

Sam Fancher fought Jim Barry in Bourne, Australia, yesterday. The last time they fought, it was Barry's turn to be allowed a draw. Yesterday, being the customary second round, Fancher slammed him around until the referee stopped the fight in the eleventh round. Oh, that there were enough Barrys to go around. Then the fighters could all eat regularly.

Come on Duke.

The Duke of Southernland is in this country to see about challenging for the American cup. Some three years ago it was announced that the Duke would build a yacht and go after the cup; but he changed his mind. His new challenger will probably be a class K vessel about seventy-seven feet on the water line. This is much smaller than the Reliance type. A class K yacht can be built and raced for about

(Continued on Third Page.)

DELMAS OUTLAWS STATE LEAGUE.

(BY DIRECT WIRE TO THE TIMES.)
SAN FRANCISCO, May 13.—Exclusive Dispatch.] Trouble is brewing between the Pacific Coast League and the newly-organized State League.

President A. T. Baum announced today that the Coast League has split with the State and in the future will have no business with it of any description. This means that no Coast League player will be loaned, that the Sacramento grounds cannot be used, and that the State League will be regarded as an outlaw organization.

The hitch in the relations of the two leagues came about over Modesto, including upon playing Bert Delmas, a player who has been suspended by the Oakland Coasters. Modesto and Franck, the two other players under dispute, were given permission to play, but Delmas belongs to the Oaks and is not eligible.

President George Fraser of the State League hopes to straighten out the tangle. "I instructed Modesto not to play Delmas and they disobeyed and went ahead and played the shortstop," said Fraser. "I took the Modesto manager to task and he replied that negotiations are going on now to purchase the players from the Oakland club. If Modesto does not buy Delmas, but continues to play him, the town will be dropped from the circuit and will be replaced by a team from San Jose, Marysville or Modesto."

WILLIE RITCHIE MAY FIGHT IN LOS ANGELES.

Joe Rivers Is Getting Homesick in Denver—Wolgaast Will Have to Adopt Better Training Methods and Cut Out Smoking Bit "Ropes"—Other Interesting Fight Gossip.

BY OWEN R. BIRD.

WHAT is Willie Ritchie? Is the question that is going the rounds today. This young man has been having a great time with the veterans and their attempts to come back since last Thanksgiving. It will be remembered that he was the man selected to see how good Freddie Welsh was after Ad Wolgaast went but under the knife, and it will also be remembered that he gave Fred some little time in the ring that afternoon, and further that Welsh had all he could do to get a hair-line decision over the tough San Francisco lad.

What we heard of him almost stopping the wonderful Ad Wolgaast in four rounds and actually having the champ groggy. But despite all that he has shown, the critics keep calling him a good second rate, leaving him a great fight with Joe Rivers or some of the other members of the rising generation, and why he has been left in the north fighting four and six-round goes, is more than we can understand.

The only answer to who is Ritchie? Is that he is one bad mixer and not a good second rate. He would make a great fight with Joe Rivers or some of the other members of the rising generation, and why he has been left in the north fighting four and six-round goes, is more than we can understand.

to feel the Spring street pavement under foot once more and as soon as the exhibition with Bob Davis is over they will be pounding the steel for Los Angeles.

Levy writes that his charge is settling down a whole lot and that he will be a different boy when he comes home after the trip through the north and Middle West.

We are glad to hear this and hope that Joe will come home a real serious boy and get down to business for the fight on July 4, which will be the turning point of his career.

Herick to Invade.

Harry Gilmore is in the wilds of Texas by this time, having left Sunday night for El Paso, where his midweight charge, Jack Herick, is hanging out getting ready for the little fight with Ed Mitchell in Juarez, Old Mexico, June 19.

Herick is a willing boy, but has not begun to have the experience that will mark him as a seasoned veteran of the ring yet, but give him a little schooling in the bushes and he may develop into something like real class. He is strong enough, but has not that aggressive style that champions are made of and it will take another year

(Continued on Second Page.)

Dan McLeod (Left) Formerly World's Champion Wrestler. At the right is McLeod wrestling with Al Treloar at the L.A.A.C. McLeod was Treloar's old teacher. Both are now employed as instructors at the club.

REVIVAL OF WRESTLING: DAN M'LEOD ENGAGED.

WRESTLING, which of late has fallen on evil days, is to be revived on the Pacific Coast. The Los Angeles Athletic Club has taken a hand in this movement.

Dan McLeod, at one time heavyweight champion of the world, and perhaps the cleverest living exponent of the art, has been engaged as instructor, and a large number of well known business men have signified their intention of joining his classes.

In the days when he was in the "game," McLeod met most of the big wrestling stars of the world, among them Frank Gotch. The match between them took place at a country fair in Iowa, and according to Gotch's own description, it must have been a hummer.

HOW HE THREW GOTCH.

Here is Gotch's description of the finish:

"After a heap of coaxing and joshing, McLeod finally consented to take holds on the cinder road. We took holds, and—well that is all I remember of how and what happened, only that he walked off with the money. They carried me home—so they told me a long while after, put me to bed and hired a specialist to dig the clinders out of my back. They did not have for thirteen months either. I was dead to the world. Dan McLeod made me look like a fool before all the town people—people who regarded me as the strongest and best wrestler on earth."

When a 165-pound man is talked about like that by the great Frank Gotch, you can say a small wonder that he was some wrestler. For several years Gotch was a little bit sore, but he showed his sportsmanship by giving Dan all of the credit that was due him. He even says that McLeod was responsible for his later success, for

BIG SHAKE-UP IN CHICAGO CUBS.

(BY DIRECT WIRE TO THE TIMES.)
CHICAGO, May 13.—[Exclusive Dispatch.] Manager Chance announced a big shake-up in the Cubs after the game with the Giants was over this afternoon. He wants to get more speed and more batting strength on the team, so he has decided to put Ward Miller in the game and take out Eddie Lennon.

In order to do this, he has to bring Artie Hoffman in from the outfield and use him on first base. Then he will shift Heinie Zimmerman from first to third.

The team that will face the Phillies tomorrow afternoon will line-up and bat as follows: Sheppard, left field; Miller, center field; Schultz, right field; Zimmerman, third base; Hoffman, first base; Tinker, shortstop; Evers, second base; Archer, catcher, and Cheney, pitcher.

Tinker expects to be able to play today, but if he isn't his place will be taken by Moore. If Miller hits the ball as he is expected to, he will have a fine chance to stay in the outfield all summer. If he fails to make good, Chance probably will put Hoffman back in center, leave Zimmerman at third, and put Sair on first.

ZIZZLES FROM THE DIAMOND.

The Latest Bulletin from Baseball Row.

Hap Hogan Ready for Head-Chopping Scene.

Coming and Goings of the Ball Players.

The Portland club arrived in the city early yesterday morning, and after registering at their hotel, the boys made tracks for Ocean Park, where they spent the warm afternoon in the surf.

The water was not as warm as might be expected on an afternoon such as yesterday's, but the Beaver players thoroughly enjoyed themselves and returned to the hotel in jolly spirits, ready to go after the Vernon lads in rapid-fire order today.

Gilligan All Here.

There are two Gilligans down with the Portland forces, this time. One is a pitcher and the other is a pitcher. The 200 hitting slipper was married last Saturday and of course Mrs. Gilligan was brought along in the trip.

Stewart Suspended.

"Hap" Hogan yesterday let down the bars and Fitcher Stewart wandered out of the fold, temporarily suspended, or rather, suspended till he gets in shape to handle the situation on the "Tiger" hill.

Rah! Rah! Boys Good.

Harry Price, the former Polytectonic and U.S.C. catcher, who is now doing the housework for the Senators, is hitting at a .315 clip and running third in the Sacramento batting line. Swain is at the top with .318 and the weather has been of great count of four bingles with .317 on his tally card.

It now looks as if Price will stick with the Senators, but there is no telling. A few cut-outs are to be performed among the coast teams within the next few days and the fans are anxiously watching to see who will get the gain.

McCredie's Split.

Walter McCredie has his team well down to the limit and stated yesterday that he would retain all his players. "If I can't win with eighteen men, I can't win with 100. When a manager carries an army of dead ones, he cannot get the chance to work the good men," said the Tall-proportioned manager last night.

"We'll Have Crowds."

Baseball is drawing larger crowds all up and down the Coast this year than ever before and notwithstanding the fact that Portland is not up at the round place where the pennant flies, and the weather has been of damp variety which drives folks up and down the manager's back, the stands have been well downed and Portland's only rival has been Los Angeles.

"Wait till the sun begins to shine and the bunch gets to jamming that ball," said Chadbourne. "We will have some of the greatest crowds in Portland in another month that have ever watched a ball game outside of Manhattan town."

Hap Just Hates to.

Hogan is expected to be seen in his garden with the clipper some time this week, but he hates to do it. The laws of the National Commission are binding and they must be obeyed by members of the baseball world, just as the laws of banking must be obeyed by the members of the American Bankers' Association.

The commission orders the reserve out and although "Hap" has a "lect," (get that?) combination, he must comply with the orders from above.

"I wish I could pay some other fellow to do the job," said the manager yesterday, "but I will have to do it myself. It will hurt me more than anyone to let any of the boys out. They are all good. I have no dead wood on the whole line-up and believe me, Vernon has some team."

It is a task for a manager of "Hap" type to let a player go, and when the final orders are passed, the orange strappings on the new Vernon sweaters will be discarded and the number two will stand for Hogan's feelings.

Book Out for Spec.

"Spec" Hartness has not been right this season, but the spotted one seems to have gotten him of himself again and will be used in one of the games of the coming series. If the boy is right, look out, "Hap."

Where's Benson?

Henderson is not with the Tigers layout this time. There is a certain amount of the secret stuff surrounding the case of the pitcher, but Walt thinks that he is not far away. The reports had it Sunday that Benson had been working out with one of the Northwest bunk tribes. Perhaps Henderson has hit his stride.

Delhi Makes Good.

The report that Dennis Long has been dickered for Delhi caused the fans and the players alike to get busy with the jibbers. Some claim the boy to be no better than the Coast League veteran, but assume that he will develop into a big true number if given time.

Speed McDonnell said that the training in the world is to be had in the bench school of a big league club. If a youngster has it in him, the manager will keep him on the timber and let him watch the things till he knows the inside stuff, then he will either let him out in one of the farm pastures or keep him close at hand; but Delhi seems to be too good to let out. In the early workouts, the big number showed up in sterling quality and with that start there is little chance of his coming back to the Coast.

Bennie Smith's Class.

Bennie Smith, the local boy who went to Boston in the Tri-State League, is showing great class in the short field and hitting a shade over the .300.

(Continued on Second Page.)

(Continued on Fourth Page.)

Mr. Wad Was Just Trying to Help Get Out the Vote--But He Was Tempted and He Fell, That's All!

Stirring Moments in the Wolgast-Ritchie Battle.

WOLGAST AND RITCHIE TO HAVE ANOTHER ONE.

At Will Give Willie Another Chance Over a Longer Route on June 15--Jack Britton and Ritchie Will Be Next Number on the Fight Programme if Efforts of Coffer Are Successful.

ST. JOSEPH, Mo., May 13.—(Exchange.) It is likely that the fight between Jack Britton and Willie Ritchie will be the next number on the fight programme if the efforts of the Coffer are successful. Ritchie is a light heavyweight and Britton is a middleweight. The fight is expected to take place on June 15 at the Coffer gymnasium in St. Joseph, Mo. Ritchie is a former champion and has a record of 15 wins and 2 losses. Britton is a former champion and has a record of 12 wins and 1 loss. The fight is expected to be a close one.

ALMA WHITAKER'S PROPHECY.

Oh, my prophetic soul! Methought I saw the links of the Los Angeles County Club during this great week, with sixteen strong men and true in a mighty contest for the laurels of the championship. That brave and valiant knight, Ed Tuttle, walking with superb heroism to certain defeat at the hands of Macbeth. J. W. Wilson, recalling his 31 with a shudder, making a mighty spurt and defeating Arthur Bealy by way, 1 up and 2. And Seever, basking in his short-lived glory, falling with a sad resigned smile upon his wistful face, as Armstrong walks to victory over his corpse with say, 6 up and 4. Then Jack Jevne, treating Walter Cooby with tender consideration, will prove the winner by, well, let us say, 4 up and 3. Between Mr. Brown and Mr. Sale, the issue is less defined, but I think it is Mr. Sale who wears the air of a conquering hero. And George Schneider, mild and unassuming, gently ousts Elliott off the list, with so light a touch that he cannot realize he has done so. Then there is a fierce struggle between Judge Frederickson and Frank Edwards. Dashing Frank, debonair and exquisitely amiable, the judge, somewhat perplexed and yearning to explode. The issue very doubtful, but surely, yes, surely the judge wins. Then in the next round, Wilson to meet Macbeth. Macbeth deprecatingly courteous, just simply hates to beat him, but, well, I'm afraid I must, old chap, you know. Awfully sorry. And Armstrong, with rather less compunction, will gaily wipe out Walton, who defeated the proud old pioneer, Melius, in the first round. Jevne will walk around the course politely with Mr. Sale, and Judge Frederickson will explode. The issue very doubtful, but surely, yes, surely the judge wins. Then comes the semi-final, where giant meets giant and the earth trembles. Armstrong and Macbeth! At Annandale it was Armstrong who

COLLEGE AND PREPS IN MEET.

BIG SWIMMING MEET COMES OFF NEXT WEEK.

Many High Schools and Colleges Enter Their Teams in Big Water Contest at Redondo and Some Fast Work Is Expected -- Lady Langer Jo Competes.

The big swimming tournament for the intercollegiate and interscholastic championships of Southern California is to come off this coming Friday night at Redondo. Willie Robb tells us that it is the largest thing ever pulled off in this section of the country. The entries are now coming in thick and fast and it is certain that three colleges will have full teams in the races while two others will have at least a couple of entries in each event. Throp will put their hopes in Lady Langer, coast champion and about the best all-around swimmer in the south. Langer says that he will enter in every race and that if he can find three other fellows who can swim one length of the pool, he will also enter a relay team. Langer managed to get second place in the intercollegiate meet all by himself last year and as the competition is not quite so good among the college swimmers, has hopes of being able to land first for his college this year.

Pomona College will probably send down two men, Kingman and Metz. Both of these men are good sprinters and divers, while the former is also a good under-water swimmer. This means that while their chances are pretty slim for landing the championship, they are going to add considerably to the competition for places. The Los Angeles College of Osteopathy is also to break in with a team. They held a picnic down at the beach a couple of weeks ago and discovered that they had some budding champions enrolled among their members so they claim that they have several dark horses who will gather a few of the stray places from the experienced swimmers. U.S.C. will enter a full team of experienced men. They have several good swimmers who have not been letting their light shine in the tournaments. They are coming out with a vengeance this time and think that their large number of entries will carry the day for them. Occidental will have a team composed of Stetter, Jones, Wiseman, Henry, and Egan. Yakeley and possibly a couple of others. They have been practicing for some time and have made pretty good time in their trials so that they can be looked to for some good work when the pistol starts them off. The Tigers are looking with long eyes towards both of these big banners which Robb is putting up and are counting on their second and third place men to win the meet for them. They have a very fast relay team, and have plenty of men whom they will save out of the other races in order to keep them fresh for this event. The high schools are entering big teams and it begins to look as though there might have to be some heats run in some of the events. Los Angeles and Long Beach are the most likely contenders for the title and there is some great rivalry between these two institutions.

IN THE BIG PLAY-WORLD

By JULIAN JOHNSON.

Frank Parker, a Chicago youth, has been sentenced to stay away from theaters for one year, by a judge who found that he laughed inordinately at a "vaudeville" act and broke up the show thereby.

William A. Brady will have thirty appearances on the stage next season.

Angeline Thomas's comedy, "When It Comes Home," seems to have proven fairly satisfactory in its three weeks' run at the Illinois Theater, Chicago, and Freeman announces that he will inaugurate the season at the New York Lyceum with this piece in the autumn. The cast includes William Courtright, John Findlay, Earl Browne, Gail Kane and Frederick Page.

"Beauty and the Stranger" will replace in New York another year. The Pacific Coast company is now being organized, and may open in Los Angeles.

McKen Rankin is playing over a three weeks' circuit in the northern part of the State.

Flourish Roberts and co., Walter Graham, have united for an Orpheum tour.

J. Bush Brown, years ago, very well known in Los Angeles theater, is the new manager of the California Southern Circuit in Kansas City.

The Irish tragedian, Ollie Mack, in "The Great O'Connell," "The O'Connell" and "The O'Connell" is playing at the Orpheum.

Paul Benjamin, the large and imposing actor, will play at the Orpheum.

"The Governor's Lady," a play in three acts, an epilogue, by Alice Bradley, has been given a production at the Orpheum.

Joe Goetz has closed a deal with the Orpheum for a production of "The Orpheum" in picture form. Goetz has been playing in the Orpheum since the Orpheum.

Joe and only have reopened in Western-Felds burlesque. They are at the Orpheum.

Walter Ware will soon come to town in "The Orpheum" which Lewis Stone and Florence Oakley gave premier at the Orpheum.

Walter Ware, playing an important role, is George W. Barnum.

John Cavalieri has been engaged by the Orpheum for his New York Winter.

Annette Kellerman may be featured in musical comedy next year. She is now abroad appearing in a spectacle called "Tudor."

The old story of the ill wind is being reworked. The Titanic disaster is making thousands for the motion picture people.

Another Japanese play has been produced in Paris. It is called "Japanese Honor," and seems to have attained great success.

Frank Lator seems to have been the principal hit of "The Pink Lady" in London. Three or four years ago Lator played an engagement at the Mason Opera-house, enacting a minor role, which was significant for its originality and great effectiveness.

The United States government appears to be going into the film business, as, under its supervision, a moving picture series on operations along the line of the Panama Canal has just been taken.

Two chorus girls, who moved first in Minneapolis, were arrested and fined \$15 each. Probably they moved right over to St. Paul.

In Kall's stupendous purchases to keep Martin Beck out of eastern vaudeville, he is said to have paid for the Perry Williams interests no less than \$1,250,000. Williams is out completely.

George Primrose, the veteran minstrel, who spent considerable time in Los Angeles last year, has settled the divorce against his wife out of court, and which are now more reconciled. Primrose is said to be worth half a million dollars.

The all-star cast of "Patience," given in New York last week, includes Marie Dora, Eva Davenport, Christine Nielsen, Viola Gillette, Alice Brady, De Wolf Hopper, Cyril Scott, Eugene Cowen, George J. MacFarlane and Arthur Aldridge.

Mattie Williams and a fine cast will be presented in "The Girl From Montmartre," at the Criterion Theater, New York, early in August.

Ernest Sangerville's play, "The West of the World," is entering up a tremendous fuss in London.

Bob Fitzsimmons is again going to the legitimate. He has a place called "A Fight for Love." His leading woman is one Myrtle Byrne.

Om Waldrop, formerly of the local Belasco company, is featured in Chicago in a place called "The Miracles of the East." He is at the Orpheum.

Moving pictures are being shown in the La Salle Theater of Chicago.

Charles Frohman is to present "The Orpheum" in London soon, with Donald Brian and Julia Sanderson featured. Such productions are of interest not because they are in London or because Frohman makes them, but because they seem to mark the invasion of Europe by American theatrical talent—such as young Mr. Brian.

Anna Pavlova, the greatest of Russian women dancers, is playing a long-time engagement at the London Palace.

Henry Stanford.

Who will arrive in Los Angeles in a few days, to prepare for the role of Jerry, which he will play in Hartley Manners's new piece, "Pag of My Heart," when that play, intended as a starring vehicle for Laurette Taylor, is produced on the Burbank stage. Stanford played a leading role in "The Garden of Allah," and to some here leaves Lewis Waller's revival of "Mousser's Rascals," in which he has been playing the role opposite the famous English actor. Stanford was with Sir Henry Irving a number of years, and played Faust to Irving's Mephistopheles.

Threat News.

UTAH MAN TIES WITH HIGHEST.

LAST DAY OF VENICE SHOOT IN FULL OF SENSATIONS.

Pigeon Experts Show Remarkable Skill in Three-day Gunfest, in Which Surprise Are the Rule. Amateurs and Professionals Split Even in Bull's Eye Honors.

Grinding up target after target at Venice with monotonous regularity, although letting them get three or four yards farther away than most of the cracks consider compatible with consistent accuracy, all brights and every admissible angle being the same to him, M. H. O'Brien, Utah, featured the closing day of the big shoot with one of the finest exhibitions of accurate gun efficiency ever beheld at a Los Angeles tournament, when, in the waning light of late afternoon, facing the handicap of short time and hurried by everybody in his far as methodical man could be hurried, he pointed his auto-loading gun to the exact spot and center thirty-eight times in his "straight" and "true" shooting, averaging honors with the redoubtable Kelly Champion and the Los Angeles Gun Club serial shot, H. H. "Red" Bunker, at 93½ per cent for the 200 birds programmed.

The high average on average for the three days follows:

Name	1st	2nd	3rd	Total	Average
M. H. O'Brien	200	200	200	600	93.75
Kelly Champion	190	190	190	570	93.75
H. H. Bunker	180	180	180	540	93.75
W. J. Smith	170	170	170	510	93.75
J. E. Brown	160	160	160	480	93.75
R. M. Jones	150	150	150	450	93.75
C. L. White	140	140	140	420	93.75
D. K. Green	130	130	130	390	93.75
F. G. Black	120	120	120	360	93.75
G. H. Gray	110	110	110	330	93.75
H. I. White	100	100	100	300	93.75
J. K. Black	90	90	90	270	93.75
L. M. Gray	80	80	80	240	93.75
N. O. White	70	70	70	210	93.75
P. Q. Black	60	60	60	180	93.75
R. S. Gray	50	50	50	150	93.75
T. U. White	40	40	40	120	93.75
V. W. Black	30	30	30	90	93.75
X. Y. Gray	20	20	20	60	93.75
Z. A. White	10	10	10	30	93.75

The shooters will meet a day and many will then turn up Tuesday morning for the two-day tournament, where the Urbis Gun Club's two-day tournament opens with \$500 added. It terminates Wednesday night, and then there is another gun race. Thursday, Friday, Saturday and Sunday of the week, the Pacific Gun Club of the Pacific, where the full squad and two over to the local shoot, three squads going through their identity, will pull off its tournament. A special invitation to all the local cracks has been extended. Many of the out-of-town visitors, however, were forced to leave today for their homes.

NEW RULES.

Needed for the Judges of Pigeon Shooting to Eliminate the Discards Which Now Prolong Bouts.

Discards have been endeavoring for the last few seasons to bring about a system of judging which would be as simple and adequate in practice. Marked improvement has been made. Still, the season which closed with the national championships with the feli, dueling swords and sabers has not been as successful in respect to the judging as the officials and the judges at the end because two or three of the colleges believed the teams had been the victims of incompetent or prejudiced judges. So the colleges at the annual meeting last month adopted a system of open judging.

Another Japanese play has been produced in Paris. It is called "Japanese Honor," and seems to have attained great success.

Frank Lator seems to have been the principal hit of "The Pink Lady" in London. Three or four years ago Lator played an engagement at the Mason Opera-house, enacting a minor role, which was significant for its originality and great effectiveness.

The United States government appears to be going into the film business, as, under its supervision, a moving picture series on operations along the line of the Panama Canal has just been taken.

Two chorus girls, who moved first in Minneapolis, were arrested and fined \$15 each. Probably they moved right over to St. Paul.

In Kall's stupendous purchases to keep Martin Beck out of eastern vaudeville, he is said to have paid for the Perry Williams interests no less than \$1,250,000. Williams is out completely.

George Primrose, the veteran minstrel, who spent considerable time in Los Angeles last year, has settled the divorce against his wife out of court, and which are now more reconciled. Primrose is said to be worth half a million dollars.

The all-star cast of "Patience," given in New York last week, includes Marie Dora, Eva Davenport, Christine Nielsen, Viola Gillette, Alice Brady, De Wolf Hopper, Cyril Scott, Eugene Cowen, George J. MacFarlane and Arthur Aldridge.

Mattie Williams and a fine cast will be presented in "The Girl From Montmartre," at the Criterion Theater, New York, early in August.

Ernest Sangerville's play, "The West of the World," is entering up a tremendous fuss in London.

Bob Fitzsimmons is again going to the legitimate. He has a place called "A Fight for Love." His leading woman is one Myrtle Byrne.

Om Waldrop, formerly of the local Belasco company, is featured in Chicago in a place called "The Miracles of the East." He is at the Orpheum.

ZIZZLES FROM THE DIAMOND.
(Continued from First Page.)

mark, according to a letter received by John Kelly, from Jack Kallachy, the Boise manager.

Walk Easton U.S.C. The latest rumors have it that Walter Walk, the young heavier who was wanted by several Coast managers last fall, has entered U.S.C. last year. The pitcher will be seen in the amateur ranks this summer and will be in great shape for the college series if he enters the university.

Over-working Howley. Howley has been earning his E. Pluribus Unum this season. The Cleveland Indians have caught every game but one played by Portland this season. A look at his left mitt will give an idea of the stuff ball players are made of; but the catcher never says a word.

Any fan who has played a little ball and has had a joint bruise will sympathize with Howley, whose hand looks like an over-ripe banana.

Abner's Whistle. "Bill" Rapps says that it is not necessary to go into the ball park to watch a game when Oakland is playing. You can stand on the outside and listen to that Abner's gink whistle, and if Oakland is in the lead, the notes will tell the tale if the Oaks are down.

Speaking of Abner, Kruger, who leads the Portland batting list, claims that the big fellow keeps him in the league, and that out of the thirty-seven men who have played for him, thirty-six have been of the great Abner.

Railroads and Population. [Journal of Commerce.] The United States has an area fourteen times that of France, with a density of population one-sixth as great. In proportion to area this country has about two-thirds as many miles of railway line and over three and a half times as many miles of track as France. Yet in proportion to the population the United States has over four times as many miles of line and an aggregate freight capacity about eight times as great in proportion to population.
